Good Afternoon Alyson.

I hope you are well. Please see the below email from the Swansboro West Civic Association detailing their non-opposition to the SUP at 3704 Lawson. Could you please include it in the case file for the request?

Thanks,
Alessandro

Good Morning,

Thank you both for your time and patience last night. I appreciate the time you took with all of the questions. Because we have opposing sides on this issue the civic association will not take a position for or against this project. However personally my husband and I support this project. My only requests (as I have stated to you already) are to be a part of the community in volunteering and participating. Plant native plants and trees to keep our tree canopy (what little we have) alive and well. To keep the 3 mature trees on the property from destruction during the construction of these homes. I met a wonderful group at an open house last weekend for native plants. They are a Richmond born native plant only landscapers. They are future habitats. They specialize in insuring natives planted when landscaping. We look forward to the project moving forward. As I mentioned last night. If you do not already know there is a 2 mile rails to trails park going in at the end of that street. A big bonus for the neighborhood.

Sincerely
Denise Payne
