Program Objectives:

The objective of the State Homeland Security Grant Program is to assist state and local preparedness activities that address high-priority preparedness gaps across all core capabilities that support terrorism preparedness. All supported investments are based on capability targets and gaps identified during the Threat and Hazard Identification and Risk Assessment (THIRA) process, and assessed in the State Preparedness Report (SPR).

The FY2021 State Homeland Security Grant Program (SHSP) supports state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. References to these priorities can be found throughout this document. The FY2021 HSGP provides funding to implement investments that enhance terrorism preparedness and serve to build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. The allowable costs under FY2021 HSGP support the core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery.

Important Award Terms and Conditions:

Subrecipients must comply with the following federal requirements:

- FY2021 Homeland Security Grant Program (HSGP) Notice of Funding Opportunity

Your local emergency management agency may retain and use up to five percent of the award for local management and administration purposes. M&A activities are those directly related to managing and administering SHSP Program funds, such as financial management and monitoring. It should be noted that salaries of local emergency managers are not typically categorized as M&A, unless the local emergency management agency chooses to assign personnel to specific M&A activities.

Indirect costs are allowable under this program, as described in 2 C.F.R. § 200.414. With the exception of recipients who have never received a negotiated, indirect cost rate as described in 2 C.F.R. § 200.414(f), recipients must have an approved indirect cost rate agreement with their cognizant Federal agency to charge indirect costs to this award. A copy of the approved rate (a fully executed, agreement negotiated with the applicant's cognizant Federal agency) is required at the time of application, and must be provided to FEMA before indirect costs are charged to the award.

Due: On or Before July 30, 2023

Within 30 days following the end of the period of performance, subrecipients must upload a Final Progress Report detailing all accomplishments throughout the Period of Performance in vdem.emgrants.com account. After this report has been submitted, reviewed and approved by the Grants Office, a close-out notice will be issued which will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the record retention requirements for grant records. The subrecipient must return any funds that have been drawn down, but remain unliquidated in its financial records.

Period of Performance Extensions:

Extensions to this program are allowed. Extensions to the initial period of performance identified in the subaward will only be considered through formal, written requests addressed to VDEM, and must contain specific and compelling justifications as to why an extension is required. Subrecipients are advised to coordinate with the Grant Administrator, as needed, when preparing an extension request. All extension requests must address the following:

1. Grant program, fiscal year, and subaward ID number in vdem.emgrants.com
2. Reason for delay that must include details of the legal, policy, or operational challenges that prevent the final outlay of awarded funds by the applicable deadline
3. Current status of the activity/activities
4. Approved period of performance termination date and new project completion date
5. Amount of funds drawn down to date
6. Remaining available funds, both Federal and non-Federal
7. Budget outlining how remaining Federal and non-Federal funds will be expended
8. Plan for completion, including milestones and timeframes for achieving each milestone, and the position/person responsible for implementing the plan for completion
9. Certification that the activity/activities will be completed within the extended period of performance without any modification to the original Statement of Work, as described in the approved budget

Extension requests will be granted only due to compelling legal, policy, or operational challenges. Extension requests will only be considered for the following reasons:

- Contractual commitments by the grant recipient with vendors or subrecipients prevent completion of the project within the existing period of performance
- The project must undergo a complex environmental review that cannot be completed within existing period of performance
- Projects are long-term by design and therefore acceleration would compromise core programmatic goals
- Where other special circumstances exist

Recipients should electronically submit all extension requests to VDEM via vdem.emgrants.com no later than 90 days prior to Jul 31, 2023.

Please initiate the steps described under Accessing Your Allocation within 30 days from the date of this notification. If you have any questions regarding this award, please contact your grants administrator at VDEM.

Sincerely,

Cheryl Adkins
Chief Financial Officer
