Project Information

Project Type: ☒ Alteration ☐ Demolition ☐ New Construction (Conceptual Review Required)

Project Description (attach additional sheets if needed):

(see attached)

Acknowledgement of Responsibility

Compliance: If granted, you agree to comply with all conditions of the certificate of appropriateness (COA). Revisions to approved work require staff review and may require a new application and approval from the Commission of Architectural Review (CAR). Failure to comply with the conditions of the COA may result in project delays or legal action. The COA is valid for one (1) year and may be extended for an additional year, upon written request and payment of associated fee.

Requirements: A complete application includes all applicable information requested on checklists available on the CAR website to provide a complete and accurate description of existing and proposed conditions, as well as payments of the application fee. Applications proposing major new construction, including additions, should meet with staff to review the application and requirements prior to submitting an application. Owner contact information and signature is required. Late or incomplete applications will not be considered.

Zoning Requirements: Prior to Commission review, it is the responsibility of the applicant to determine if zoning approval is required an application materials should be prepared in compliance with zoning.

Signature of Owner

Date 6/28/22

Certificate of Appropriateness Application Instructions

In advance of the application deadline, please contact staff to discuss your project, application requirements, and if necessary, to make an appointment to meet with staff for a project consultation. The CAR website has additional project guidance and required checklists: www.rva.gov/planning-development-review/commission-architectural-review

Staff Contact: (804)-646-6569 | alex.dandrige@rva.gov | alyson.oliver@rva.gov

Submission Instructions

Certain exterior work can be administratively approved by Staff. Please contact staff via email with the project address in the subject line. Submit the following items via email to staff:

- One (1) signed and completed application (PDF) – property owner's signature required
- One (1) copy of supporting documentation, as indicated on appropriate checklist (PDF)
- Application fee, if required, will be invoiced via the City's Online Permit Portal. Payment of the fee must be received before the application will be scheduled. Please see fee schedule brochure available on the CAR website for additional information.
- **Application deadlines are firm.** All materials must be submitted by the deadline to be considered at the following Commission meeting. Designs must be final at the time of application; revisions will not be accepted after the deadline. Incomplete and/or late applications will not be placed on that month's agenda.
- A complete application includes a signed application form, related checklist, legible plans, drawings, elevations, material specifications, and payment of the required fee as described in Sec. 30-930.6(b).
- The Commission will not accept new materials, revisions, or redesigns at the meeting. Deferral until the following month's meeting may be necessary in such cases to allow for adequate review by staff, Commissioners, and public notice, if required.

Meeting Schedule and Application Due Dates

- The CAR meets on the fourth Tuesday of each month, except for December when it meets on the third Tuesday.
- The hearing of applications starts at 4:00pm via Microsoft Teams. The owner and/or applicant is encouraged to attend the meeting.
- All applications are due at 12 noon the Friday after the monthly CAR meeting, except in December, when applications are due the following Monday. For a list of meeting dates and submission deadline dates for each meeting please visit www.rva.gov/planning-development-review/commission-architectural-review or contact staff.
- Exception: Revisions to applications that have been deferred or conceptually reviewed at a CAR meeting can be submitted nine (9) business days after that meeting in order to be reviewed at the following meeting. Please contact staff to confirm this date.

Fees

- **Full Demolition:** \$1,500
- **New construction/addition to a building other than for a single- or two-family dwelling or accessory building, including multi-family or mixed-use developments:** \$500
- **New construction/addition to a single- or two-family dwelling, or accessory building:** \$250
- **Amendments to previous certificates of appropriateness (COAs) concerning non-structural alterations, changes to signage, and changes to plans:** \$150
- **Extension of a certificate of appropriateness (COA):** \$25

June 28, 2022

The owners Daniel and Megan Hicks have owned the property for several years and have been renting the house during that period, as they planned their move into the city. 516 N. 26th will be their primary residence once the work has been completed.

A zoning variance will be required to allow the construction of the new wing on the north property line, without any setback.

This is not a Tax Credit project.

CAR - Description of Work:

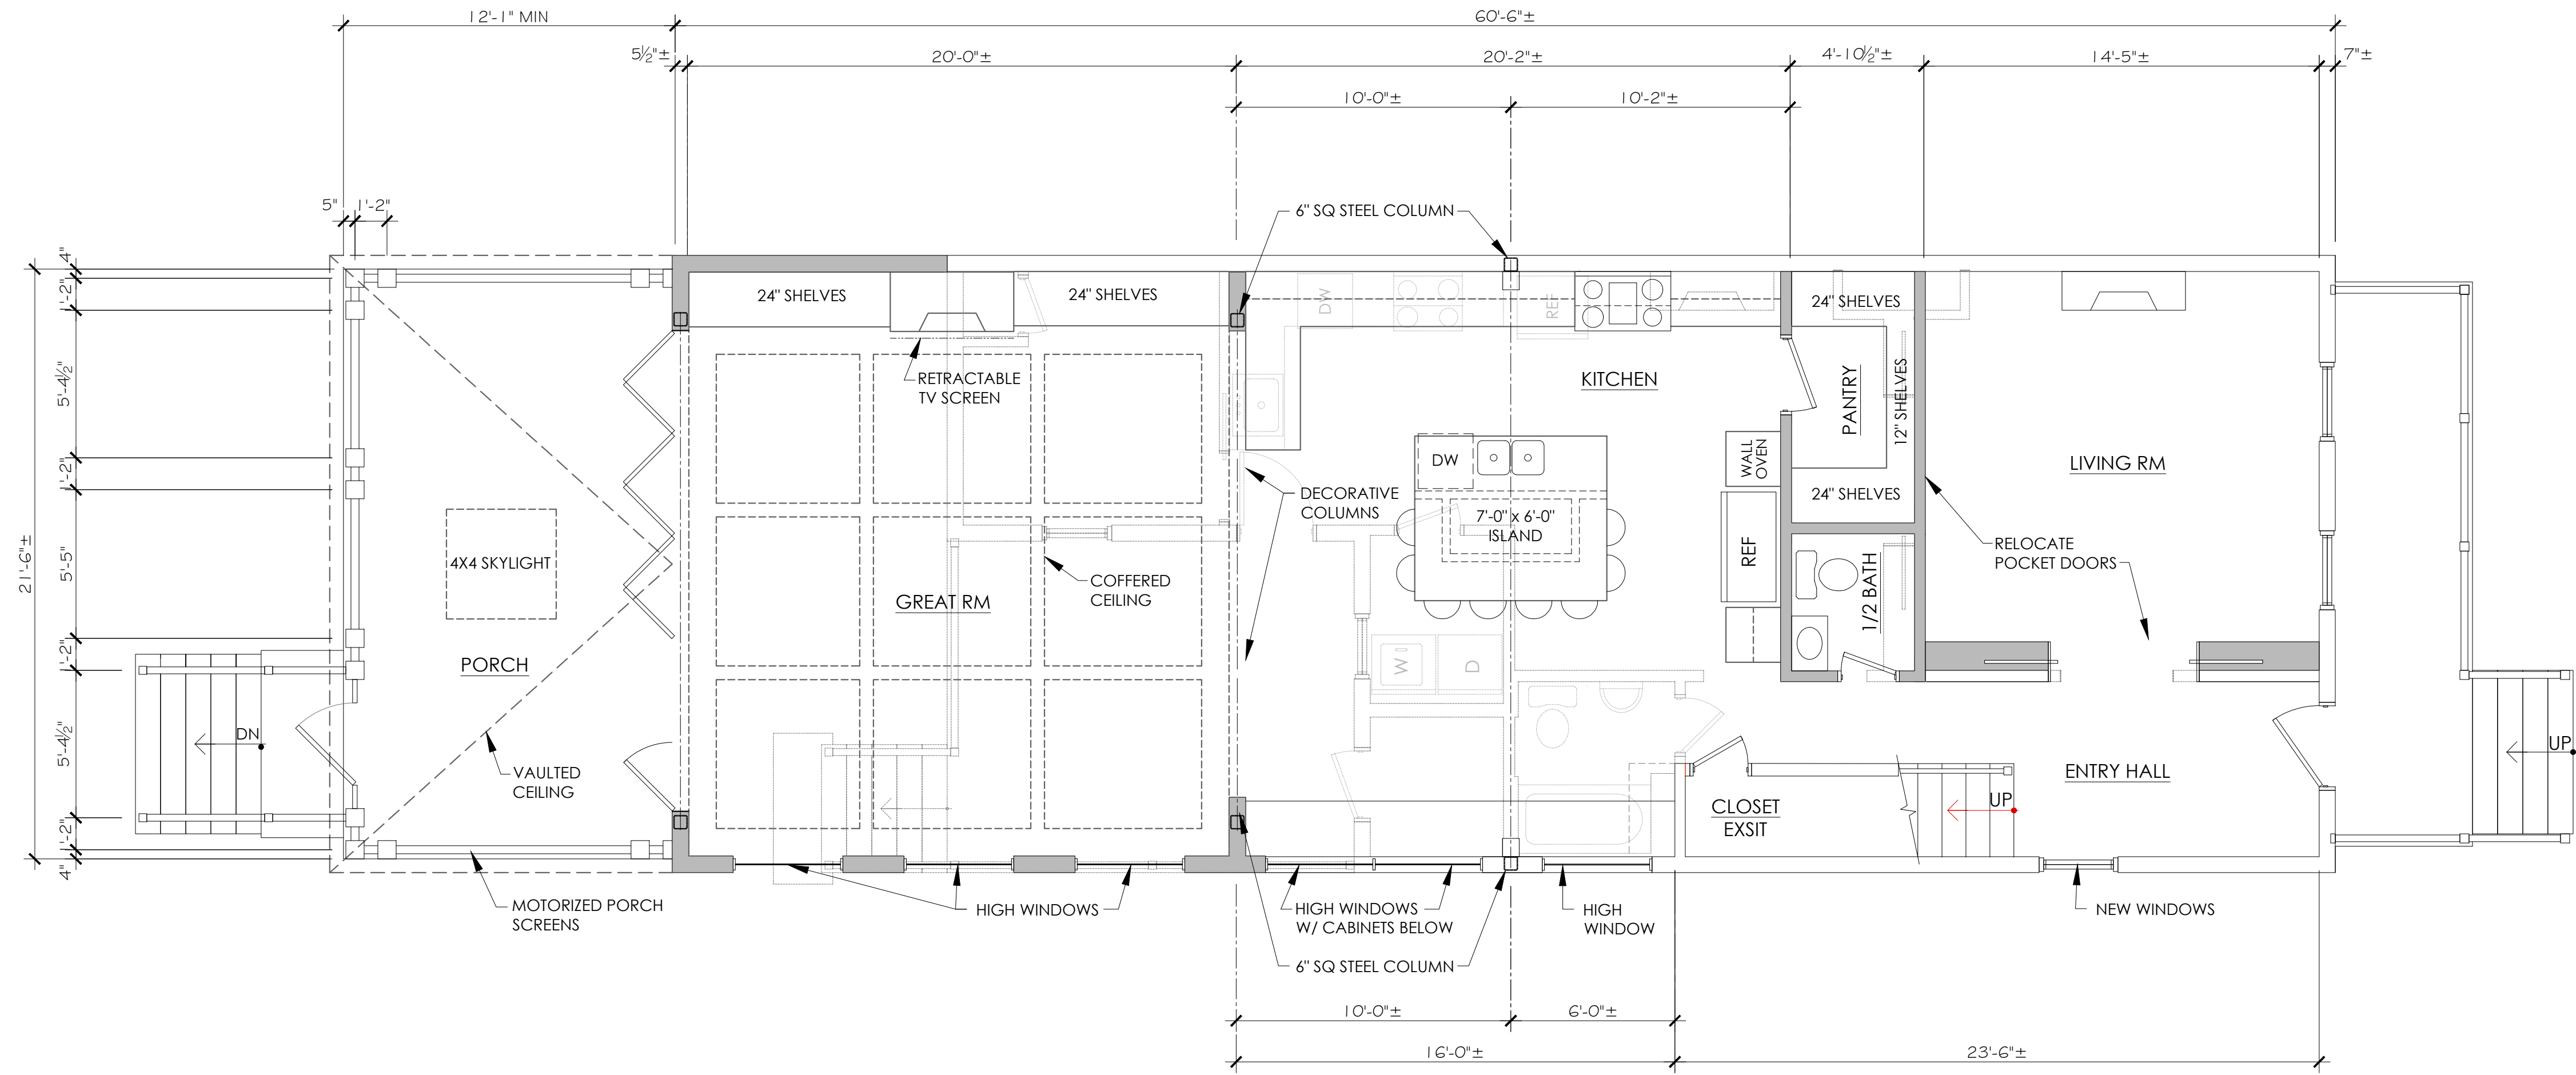

1. Front facade repair/restoration: Most of the original fabric was removed during a renovation in the 1990's prior to the area being listed as an Old and Historic District. We propose to do the following:

- a. Remove the modern vinyl siding and repair/restore the wood siding and corner boards. Hardie-plank will be installed on the side which are only minimally visible from the public right-of-way.
- b. Remove the modern vinyl windows and install aluminum clad wood windows that fit the original openings. Repair and restore the wood jambs, heads and sills.
- c. Reconstruct the deteriorated brick chimney (now covered with concrete parging) to match the size and height of the existing chimney.
- d. Remove the modern vinyl porch columns and railings and install wood columns that match the original turned wood pilasters. Replace the modern vinyl railings with simple modern aluminum railings.
- e. Repair the damaged moldings of the original wood porch cornice to match the original moldings.
- f. Remove the vinyl covering on the main cornice and restore the wood cornice, making repairs as needed to match the original material.
- g. Remove the modern treated wood porch flooring and steps and install new manufactured wood porch flooring and steps.

2. Add new wing to the rear of the house:

Remove deteriorated single story, twentieth century frame wing at the rear of the house and construct new two story frame wing to be covered in Hardie-plank siding. **Refer to attached architectural drawings.** A new wide rear only story porch will be constructed at the rear of the addition.

The existing wing no longer retains any historic architectural features as it was also completely renovated when the facade work was done. The exterior is covered with vinyl siding and fiberglass shingles. All original windows and door have been replaced with vinyl. No original fabric remains at the interior. All the floor joists have been replaced and the brick foundation is failing due to lack of footings and poor drainage.

SCHEME A

SCHEME B

It is unclear if a photograph in the City Assessor's records taken prior to the current renovations shows one-over-one or two-over-two window sash. The poor quality of the photograph makes it difficult to see that detail. We request the option for either scheme.
