ORD. OR RE	S. No.	

**PURPOSE:** To authorize the special use of the property known as 6228 Forest Hill Avenue for the purpose of a fence or wall, upon certain terms and conditions.

**REASON:** The applicant is requesting a Special Use Permit which would allow the construction of an ornamental masonry wall with signage. The property is located in the R-2 Single-Family Residential District where the height limit for fences or walls is four feet. The proposed height the support columns for masonry wall exceeds four feet. Therefore a special use permit is required.

**BACKGROUND:** The Willow Oaks Country Club is situated on a 152 acre property located on the north side of Forest Hill Avenue. The access road to the property is located between the intersections of Hawthorne Road and Glyndon Lane. The area on both sides of this road was well landscaped and contained an ornamental

brick wall. Recently Forest Hill Avenue was widened and in doing so this landscaping and a portion of the existing were removed. The applicant proposes to reestablish this entranceway amenity. Among other features, the proposal includes the installation of a masonry wall four feet in height and supported by five foot tall columns.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Institutional. This designation is defined as a "Public and quasi-public entities, such as local, state, and federal government, hospitals, universities, schools, and religions institutions.

The James River abuts to the north of the property. Powhite Parkway abuts to the east. Properties to the south and west contain single-family neighborhoods.

**FISCAL IMPACT / COST:** The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

**FISCAL IMPLICATIONS:** Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.

## **Application Report – Willow Oaks County Club**

**Special Use Permit** 

The reason for this application is to address the City's height limit in regards to Willow Oaks' R-2 Zoning. Working with David Duckhardt and Josh Young with the City, it was determined the height requirements for a masonry column was 5.5' and 4' for masonry walls. Willow Oaks would like to obtain a Special Use Permit to allow for additional height on both as shown in the attached design included in this application.

Willow Oaks Country Club is proposing a construction a new masonry entrance feature with signage. Their current wall was partially removed by the City as part of the road widening project of Forest Hill Avenue. Their old sign was also removed during construction. There would be no impact to employee staffing, hours of operation, and vehicular traffic if this application is approved and the new entrance feature is built.

The design and materials used will closely match those found throughout Willow Oaks, along with entrance features to adjacent neighborhoods. While the new entrance design is not as long as the old entrance in terms of footprint, it will take up the same general space at the entrance with regards to setbacks.

Please note the following:

-The new entrance feature will not be detrimental in any way to the surrounding community. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.

-The new entrance feature will not create any additional congestion. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.

-The new entrance will not create any fire, panic, or other dangers. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.

-The new entrance will not create an overcrowding of land or undue concentration of population. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.

-The new entrance will not adversely affect or interfere with any public or private entity/utility. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.

-The new entrance will not interfere with adequate light or air. The general footprint will be very similar to the current wall, only taller if approved. The feature will remain on Willow Oaks property and outside the ROW.
