Hoop Rack

The Hoop Rack is a proven design that provides high security and easy bike parking. The Hoop Rack uses thick pipe construction and the full radius of the bend makes the Hoop an attractive and functional bike rack. This bike rack can also be put on rails for mobility and is popular in bike corrals.

CAPACITY

2 Bikes

MATERIALS

1.5" schedule 40 pipe (1.9" OD)

FINISHES

☐

Galvanized

An after fabrication hot dipped galvanized finish is our standard option.

☐

Powder Coat

Our powder coat finish assures a high level of adhesion and durability by following these steps:

1. Sandblast
2. Epoxy primer electrostatically applied
3. Final thick TGIC polyester powder coat

☐

Stainless

Stainless Steel: 304 grade stainless steel material finished in either a high polished shine or a satin finish.

MOUNT OPTIONS

☐

Surface

Foot Mount has two 2.5" x 6" x .25" feet with two anchors per foot. Specify foot mount for this option. Tamper-resistant fasteners available upon request.

☐

In-Ground

In-ground mount is embedded into concrete base. Specify in-ground mount for this option.

☐

Rail

Rail Mounted Downtown Racks are bolted to two parallel rails which can be left freestanding or anchored to the ground. Rails are heavy duty 3" x 1.4" x 3/16" thick galvanized mounting rails. Specify rail mount for this option.

TOOLS NEEDED

Marker or Pencil
 Masonry Drill Bit 3/8"
 Drill (Hammer drill recommended)
 Hammer
 Wrench 9/16"
 Level

RECOMMENDED BASE MATERIAL

Solid concrete is the best base material for installation. To ensure the proper anchors are shipped with your rack, ask your Dero representative which anchor is appropriate for your application. Be sure nothing is underneath the base material that could be damaged by drilling.

1

Place the rack in the desired location. Use a marker or pencil to outline the holes of the flange onto the base material.

2

Drill 3/8" diameter holes 3" deep into surface. Make sure the holes are at least 3" away from any cracks in the base material.

3

Place rack (and washers to level rack if necessary) over holes.

4

Thread nuts onto anchors, leaving approximately 1/4" of the anchor protruding, and tap into surface. Tighten nuts down to secure rack.

Hoop Rack

Installation In-Ground Mount : New Concrete

TOOLS NEEDED

Level
Cement mixing tub
Shovel

Trowel
Corrosion-Resistant Sleeve (min. 3" diameter)
Materials to build brace (see "Install Tip" at bottom of page)

1

Place corrosion resistant sleeve (min. 3" inside diameter) in sand pour bed in exact location where rack will be installed. Make sure top of sleeve is at same level as desired finished concrete surface. Fill sleeve with sand to keep it in place and prevent it from filling with concrete.

2

Pour concrete and allow to cure.

3

After appropriate cure time, dig out sand from sleeves and insert rack, making sure it is level and at the appropriate height. Pour in Super Por-Rok or epoxy grout and allow to set.

TIP

An easy way to brace the rack while the grout sets is to bolt two 1x4" boards together at one end and clamp them onto the legs of the rack like a clothes pin.

TOOLS NEEDED

Level
Cement mixing tub
Shovel
Access to water hose

Trowel
Hole coring machine with 4" bit
Materials to build brace (see "Install Tip" at bottom of page)

1

Ø 3" min.

↓ 10" min.

Core holes no less than 3" diameter (4" recommended) and no less than 10" deep into sidewalk.

2

Fill holes with Super Por-Rok or epoxy grout.

3

Place rack into holes, making sure the rack is level until the grout has set. 33"-36" of the rack should remain above the surface.

TIP

An easy way to brace the rack while the grout sets is to bolt two 1x4" boards together at one end and clamp them onto the legs of the rack like a clothes pin.

RAIL MOUNTED OPTIONS

Rail mounted Hoop Racks are standard foot mounted racks attached with bolts to a rail as in the diagram at left. Rail mounted racks provide more flexibility than other mounting options while providing the same degree of security.

Rail mounted racks can be left freestanding, or they can be anchored to the ground using several anchors. This option allows for easier snow removal and sweeping. Installation of Rail mounted racks is also much less expensive than embedding the racks into the ground.

* Note: Though racks may be painted, the rails will remain with only a galvanized finish

ADVANTAGES:

- Easier and inexpensive installation
- Can be left freestanding or anchored to the ground
- Easier to remove for sweeping and snow removal

APPLICATIONS:

- Installation to pavers
- Asphalt Installations
- Ground, dirt, or mulch
- Situations where the rack needs to be moved occasionally

DERO
A PLAYCORE Company

Hoop Rack

Installation Rail Mount

TOOLS NEEDED

9/16" Socket set
Two 4"x4"x28" (or larger) blocks
4 bolts, nuts and washers for every rack
(included). If using a tamper resistant nuts,
install two tamper resistant nuts with each rack.

ANCHORING THE RAILS

To anchor the rails to concrete, place 3.75" wedge anchor through holes in the rail into the concrete. Secure with nut.

1

Lay out the two channel beams where the rack will be placed. Place the two beams on top of the two blocks of wood so that the open part of the channel faces the ground.

2

Place racks on beams so holes in rack flanges line up with beam slots

3

Put bolts through rack flange holes and beams so bolt head faces up. **HAND** tighten the nuts using new flange nuts.

4

Once nuts are on, tip assembled rack over and use a 9/16" socket to tighten nuts. Before fully tightening nuts, make sure the racks are straight on beams. If using tamper resistant nuts, use access tool to tighten nuts. Do not overtighten the tamper resistant nuts. Tip rack upright.

IN-GROUND MOUNT

SURFACE MOUNT

(or standard 4" sidewalk slab)

BANCAL

Product Data Sheet

Bancal is a modular and versatile bench for public meeting areas. Its flat steel plate structure supports a seat of wide wood boards that provides a large seating area. The optional wood board back is offset from the seat. Bancal is strong and robust in form and function. Virtually maintenance free. It withstands weather and wear with aplomb.

Bench

- Bench does not ship fully assembled.
- Benches must be embedded. Each support has two threaded rods about 4" below grade.
- Benches are available backed or backless.
- The back bench has an offset back board.
- Bench is available with or without arms.
- Arms are welded to the support.
- The bench supports and arms come in a powdercoat finish.
- Supports are made of 0.25" carbon steel.
- Available only in Ipe.
- Center seat board is rectangular, outer boards are wedge-shaped.
- Opposing back option is available for the 248" bench.

Finishes

- Pangard II Powdercoat Finish.
- Unfinished Wood.

Carousel

landscapeforms®

Product Data Sheet

Landscape Forms pioneered the carousel-style table with attached seating for outdoor space with the design of the popular Carousel Dining Table. Now Carousel reaches new heights with the addition of the Standing Height Table, Casual Height Table, Hoop Lounge Seat and expanded tabletop options. These new elements bring a fresh, casual, and vibrant spirit to settings that support multiple postures and activities. Long a preferred choice for college, corporate and healthcare campuses, the expanded Carousel collection makes it possible to create a suite of complimentary settings, for a range of purposes and interactions, with a common design vocabulary throughout a site.

Casual Height

- The Carousel table in casual height is available with 3 or 4 seats.
- Seats are available backless, backed, or hoop.
- Supports are formed of 2" steel tubing.
- Umbrella holder is a built-in feature on all supports.
- Available with a 30" table with a height of 22".

Mounting Options

- Casual height tables must be surface mounted, and utilizes glides for added stability.
- All tables can be used with all sun shades.

Tabletop

- Steelhead and Catena tabletops are formed of heavy gauge steel reinforced with channels beneath.
- Catena features a rolled edge.
- Wood tabletop has mortise and tenon construction with a steel plate reinforcement, and is available round or square.
- Available with a round or square 30" Marneaux tabletop.
- All tabletops are available with or without umbrella holes.
- Umbrella hole must be specified when ordered; cannot be retrofitted on site.

To Specify

1. Select Carousel casual height table.
2. Select seats: backed, backless, or hoop.
3. If backed or backless seats are selected, choose grid or perforated.
4. Select 3 or 4 seat units.
5. Select tabletop: Steelhead (wood), Catena powdercoat or stainless steel, Marneaux, or square wood.
Note: Square wood only available with 3 or 4 seats units
6. Specify with or without umbrella hole (may not be retrofitted).
7. Choose powdercoat color for metal parts or Marneaux color, if applicable.
8. Specify wood type, if applicable. Check Materials link on website for species.
9. Casual table is surface mounted.

| | 4 Seats Hoop | 98" | 33" | 165 Lb |
| Mounting Style | | | | |
| | Surface Mount | | | |

***Note:** Weights reflect units with grid seats and a catena table top.

Carousel

landscapeforms®

Product Data Sheet

Dining Height

- The Carousel table in dining height are available with 3, 4, 5, or 6 seats.
- Three-seat is ADA compliant and five-seat styles are wheelchair accessible.
- Seats are available backless, backed, or hoop.
- Supports are formed of 2" steel tubing.
- Umbrella holder is a built-in feature on all supports.
- Available with a 42" table with a height of 28.5".

Mounting Options

- Table can be either freestanding or surface mount.
(Note: 3 seat table must be surface mounted.)
- Four, five and six seat styles may be freestanding with glides or surface mounted.
- All tables must be surface mounted when used with all sun shades

Tables

- Steelhead and Catena tabletops are formed of heavy gauge steel reinforced with channels beneath.
- Catena features a rolled edge; Steelhead is framed by a 1-1/2" diameter metal tube and may be specified with solid, perforated, or wood top.
- Wood tabletop has mortise and tenon construction with a steel plate for reinforcement, and available round or square.
- Available with a round or Marneaux tabletop.
- All tabletops are available with or without umbrella holes.
- Umbrella hole must be specified when ordered; cannot be retrofitted on site.

To Specify

1. Select Carousel dining height table.
2. Select seats: backed, backless, or hoop.
3. If backed or backless seats are selected, choose grid or perforated.
4. Select 3, 4, 5 or 6 seat units.
5. Select tabletop: Steelhead (solid, perforated, or wood), Catena powdercoat or stainless steel, Marneaux, or square wood.
Note: Square wood only available with 3 or 4 seat units.
6. Specify with or without umbrella hole (may not be retrofitted).
7. Choose powdercoat color for metal parts or Marneaux color, if applicable.
8. Specify wood type, if applicable. Check Materials link on website for species.
9. Specify mounting: freestanding with glides, or surface mount.

Carousel

landscapeforms®

Product Data Sheet

Standing Height

- The Carousel table in standing height is only available as a 4-seat unit
- Seats are available backless, backed, or hoop.
- Supports are formed of 2" steel tubing.
- Umbrella holder is a built-in feature on all supports.
- Only available with a 30" table.

Mounting Options

- Standing height table must be surface mounted.
- All tables can be used with all sun shades.

Tables

- Steelhead and Catena tabletops are formed of heavy gauge steel reinforced with channels beneath.
- Catena features a rolled edge; Steelhead is framed by a 1-1/2" diameter metal tube and a wood insert.
- Wood tabletop has mortise and tenon construction with a steel plate for reinforcement, and available round or square.
- Available with a round or square 30" Marneaux tabletop.
- All tabletops are available with or without umbrella holes.
- Umbrella hole must be specified when ordered; cannot be retrofitted on site.

To Specify

1. Select Carousel standing height table.
2. Select seats: backed, backless, or hoop.
3. If backed or backless seats are selected, choose grid or perforated.
4. Standing height units come standard with 4 seats.
5. Select tabletop: Steelhead (wood insert), Catena powdercoat or stainless steel, Marneaux, or square wood.

Note: Square wood only available with 3 or 4 seat units
6. Specify with or without umbrella hole (may not be retrofitted).
7. Choose powdercoat color for metal parts or Marneaux color, if applicable.
8. Specify wood type. Check Materials link on website for wood species.
9. Standing height table is surface mounted.

Product Data Sheet

Solstice performs variations on the shape of shade. Cygnus hovers, gesturing gracefully. Altair quietly shields with a traditional form. All styles are highly durable, wind and weather resistant, and maintenance free. They are as elegant on the inside as they are out; as whimsical and colorful as the setting calls them to be.

Solstice™

- Solstice shade panels are solid or perforated aluminum, mounted in an extruded aluminum frame.
- Struts are extruded aluminum.
- Top cap, strut ring and end caps are aluminum castings.
- Surface mount stand is steel.

Mounting Options

- When used with a Landscape Forms table, Solstice must be mounted to the table, which in turn must be mounted to, or embedded in, a hard surface.
- If used with a table other than those offered by Landscape Forms, Solstice must be anchored to our surface-mounted stand.
- Solstice may also be used without a table, but must be secured in our surface-mounted stand.

Panel Mount

- Aluminum panels are mounted in notched, extruded aluminum frame pieces.
- End caps are aluminum castings.

Surface Mount

- Stand includes two stainless steel bolts to hold the Solstice pole in place and must be used when Solstice sun shade is not mounted to a Landscape Forms table.
- Anchoring hardware not included.

| | Style Diameter | Diameter | Height | Product Weight |
|---|----------------|----------|--------|----------------|
|  | Altair | 87" | 91" | 77 lb |
|  | Cygnus | 91" | 91" | 85 lb |

Product Data Sheet

Metal Finishes

- All metal parts are finished with Landscape Forms' exclusive Pangard II® polyester powdercoat – a hard, yet flexible, finishing process that resists rusting, chipping, peeling and fading.

To Specify

- Specify Altair or Cygnus sun shade.
- Select perforated or solid panels, and powdercoat color(s).
- Specify to mount in Landscape Forms surface mount or embedded table.
- Specify surface mount stand if using with table other than those supplied by Landscape Forms, or if used without a table.
- Specify color for stand.

Designed by Robert Chipman, ASLA
