The Chief Melvin Carter

Chief Carter,

I am writing to you this message to let you know and others members on your team how we feel about the Fire Fighters Training Center to be located at the Hickory Hill Community Center. My husband and I we strongly support this great ideal we also signed the petition saying yes. Hoping that others will follow suit in our Cullenwood community. We really need this facility in our area to help many people to learn

new skills, ideals, and opportunities for a better life. This Training facility will benefit any one and everyone who want to learn about fire and saving the lives of others. Chief Carter I wish you and your team all of the success for working so hard to put the Fire Fighter Training Center in our area. My husband and I been living in Cullenwood for 35 yrs. We need a change and a new look in our area that will help all people.

Sincerely
Howard & Mary Carr
