PURPOSE

Partnership Reinforces Roadway Safety with Traffic Checkpoint

The Richmond Police Department DUI Enforcement team and Second Precinct Focus Mission Team in partnership with Virginia State Police will conduct checkpoints throughout the City. Checkpoint locations are determined by crash and DUI data that allows the department to proactively enforce the impaired driving laws and presents an opportunity for deterrence of impaired driving.

DUI checkpoints have been shown to lower DUI deaths and injuries. Major components of these checkpoints are the deterrent effects on those who might choose to drive drunk or drugged impaired, bringing about more awareness, and encouraging everyone to use sober designated drivers.

COMMENTS

RPD emphasizes the preventable nature of drunk driving reminding everyone that all it takes is a little planning ahead. Designate a sober driver, call a cab, or use a ride-share service. But whatever you do, don't drink and drive. "Our collective goal is zero traffic deaths in the city and one driver under the influence is one too many when it comes to jeopardizing lives", said RPD Sergeant Jonathan Nathanson.

Drivers caught driving impaired can expect the impact of a DUI arrest to include jail time, fines, fees, DUI classes, and other expenses, not to mention the embarrassment when friends and family find out.
