**PURPOSE:** To authorize the special use of the property known as 1402 North 32nd Street for the purpose of a single-family detached dwelling, and two single-family attached dwellings, with off-street parking, upon certain terms and conditions.

**REASON:** The applicant is requesting a Special Use Permit for the purpose of a single-family detached dwelling, and two single-family attached dwellings, with off street parking, within an R-5 Single Family Residential Zoning District. Such uses are not currently allowed by Sections 30-410.1, 30-410.4, 30-410.5(1), 30-410.5(2), and 30-410.6, concerning permitted principal uses, lot area and width, front yards, side yards, and lot coverage, respectively, of the Code of the City of Richmond (2020), as amended. The City's Richmond 300 Master Plan designates a future land use for the subject property as Neighborhood Mixed Use which are defined as "Existing or new highly walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses."

**Secondary Uses:** Large multifamily buildings (10+units), retail/office/personal service, institutional, cultural, and government.

The current zoning for this property is R 5 Single Family Residential District. Adjacent properties are located within the same R 5 District with a large R-6 Single-family Attached Residential District directly to the South. The density of the proposed development, overall, is approximately 19 units per acre.

## Introduction

We represent the contract purchaser of 1402 N 32<sup>nd</sup> Street (the “Property”), who is requesting a special use permit (the “SUP”) for the Property. The SUP would authorize the division of the parcel into two lots and the construction of three (3) single-family dwellings, configured as one detached and two attached dwellings, on the Property. As some of the underlying R-5 feature requirements cannot be met for the single-family detached dwelling, and attached dwellings, despite their prevalence in the area, are not permitted by the underlying Zoning, a SUP is required.

## Existing Conditions

### SITE DESCRIPTION AND EXISTING LAND USE

The Property is located on the west side of North 32<sup>nd</sup> Street between Kuhn and T Streets. The Property is referenced by the City Assessor as tax parcel E000-0719/012. The Property is roughly 65 feet wide by 107 feet deep, contains approximately 6,973 square feet of lot area, and is currently occupied by one (1) single-family detached dwelling that is one story in height.

Other properties in the area are predominately occupied by a mix of one- and two-family dwellings. To the north, across Kuhn Street, lay properties administered under the Church Hill North Revitalization Plan Community Unit Plan. To the west lie a series of two story, single-family

attached dwellings which were authorized by a Plan of Development. Further west lies the Oakwood Cemetery.

## **EXISTING ZONING**

The Property and the surrounding properties to the east, west, and north are zoned R-5 Single-Family Residential. To the south, across T Street, properties are zoned R-6 Single-Family Attached.

## **MASTER PLAN DESIGNATION**

The Richmond 300 Master Plan (the “Master Plan”) suggests “Neighborhood Mixed-Use” for the Property. The Master Plan describes this land use designation as “existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses.” Recommended development styles are described as featuring “a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics. Single-family, two-family, and small multi-family buildings are contemplated as the primary uses in these areas.”

In addition to the Property-specific guidance offered by the Vision and Core Concepts chapter, there are a number of other goals elsewhere within the Master Plan that support this request:

- Page 109 (Equitable Transportation Chapter), Objective 6.1 to “Increase the number of residents and jobs at Nodes and along enhanced transit corridors in a land development pattern that prioritizes multi-modal transportation options.”
  - b. Develop housing at all income levels in and near Nodes and along major corridors (see strategies Goal 14).
- Page 136 (Diverse Economy Chapter), Objective 11.1 to “Increase the areas of appropriately zoned land near various transportation modes and housing to retain, create, and attract employers.”
  - d. Encourage the development of a variety of quality housing types to house employees across the economic spectrum (see Goal 14).
- Page 150 (Inclusive Housing Chapter), Objective 14.1 to “Increase city-wide awareness of the importance of integrating housing at all income levels into every residential neighborhood so every household has housing choice throughout the city.”
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.4 to “Increase the number of mixed-income communities along enhanced transit corridors.”
- Page 152 (Inclusive Housing Chapter) (see map on p. 153), Objective 14.5 to “Encourage more housing types throughout the city and greater density along enhanced transit corridors and at Nodes (shown in Figure 38 [p.153]) by amending the Zoning Ordinance.”
  - e) Allow the development of middle housing (2- to 4- unit buildings) by-right within 1/2 mile of high-frequency transit stops.
- Page 155 (Inclusive Housing Chapter), Objective 14.8 to “Develop inclusionary and equitable housing options for our gentrifying neighborhoods to prevent involuntary displacement.”
- Page 159 (Thriving Environment Chapter) Objective 15.1 to “Reduce air pollution related to transportation.”
  - a. Increase the number of Richmonders living in a development pattern that encourages density and reduces dependency on single-occupancy vehicles (see Goal 1, Goal 8, Goal 14).

- Page 86 (High-Quality Places Chapter), Objective 1.4, to “maintain and improve primarily residential areas by increasing their linkages to...corridors...and maintaining high-quality design standards”
- Page 100 (High Quality Places Chapter), Objective 4.1, to “create and preserve high-quality, distinctive, and well-designed neighborhoods and nodes throughout the City,” as the request introduces thoughtfully designed new construction in a manner not otherwise assured by-right.

## Proposal

### PURPOSE OF REQUEST

The SUP would permit the removal of the current structure and construction of three (3) single-family dwellings configured as one detached and two attached dwellings on two lots to be known as 1400 and 1402 N 32<sup>nd</sup> Street. The detached dwelling will be located along the T Street property line on the lot to be known as 1400 N 32<sup>nd</sup> Street. While the underlying R-5 zoning permits the single-family detached use, the lot area and width, lot coverage, and front and side yard requirements cannot be met. The two attached dwellings will be located on the lot to be known as 1402 N 32<sup>nd</sup> Street. While the single-family attached use is commonly found throughout the neighborhood among both new and historic dwellings, it is not permitted by the underlying zoning and therefore, the SUP is required.

The proposed development is consistent in character with other development in the vicinity. Based on the historic lot pattern, many lots in the vicinity are nonconforming with regard to both use and lot area and/or lot width. In all other regards, the proposal meets the zoning requirements applicable to the Property including the provision of off-street parking, which will be provided to the rear via access from the public alley.

In exchange for the SUP, the intent of this request is to ensure the construction of three (3) high-quality, for-sale dwellings. The proposal would be consistent with the historic development pattern in the greater area. The proposal is also consistent with the recommendations of the Richmond 300 plan in terms of both use and density. By permitting the proposed development, the SUP would allow for the sale of the proposed high-quality single-family attached as home ownership opportunities, while addressing additional objectives found in current planning guidance.

### PROJECT DETAILS

The proposed dwellings would be of an Italianate design at two stories in height and contain 3 bedrooms and 2.5 bathrooms. The single-family detached dwelling would contain 2,106 square feet of finished floor area while the two single-family attached dwellings would contain 1,928 square feet of floor area. The homes would each be of an Italianate design and include a full-width front porch with standing seam metal roof. The proposed floor plans have been created to meet the needs of the market with a primary bedroom with en suite bath and a walk-in closet. The proposed floor plans include modern and open living spaces on the first floor with bedrooms on the second floor. Off-street parking, accessed from the rear alley, is provided for each dwelling.

## Findings of Fact

The following are factors included in Section 17.11 of the Charter and Section 30-1050.1 of the Zoning Ordinance relative to the approval of special use permits by City Council. The proposed special use permit will not:

- ***Be detrimental to the safety, health, morals and general welfare of the community involved.***

The proposed SUP will not impact the safety, health, morals and general welfare of the nearby neighborhoods. The proposed site improvements and density are consistent with other development in the vicinity. This request would simply permit the reconfiguration of the Property in order to allow for new development to occur in a manner that is both of quality as well as consistent with the neighborhood. The redevelopment of this underutilized Property in conjunction with the high quality/benefits provided by the SUP will provide positive impacts in terms of health, welfare, etc.

- ***Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.***

The proposed SUP will not result in significant traffic impacts to nearby residential neighborhoods. The traffic generation for three additional dwelling units will be negligible, especially within the context of a walkable neighborhood. In addition, proposed parking meets that required by zoning. As such, the SUP will not create congestion on streets, roads, alleys or any other public right of way.

- ***Create hazards from fire, panic or other dangers.***

The Property will be developed in a manner consistent with the requirements of the building code and in accordance with the requirements of Fire and Emergency Services. The City's codes applicable to this development are designed to eliminate such hazards.

- ***Tend to overcrowding of land and cause an undue concentration of population.***

The proposed SUP will not tend to over crowd the land or create an undue concentration of population. The request is reflective of the historic lot pattern and uses found in the neighborhood, and is no more intense than the density found in the immediate vicinity.

- ***Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.***

The SUP would not adversely affect the above referenced City services. To the contrary, the proposal would provide positive fiscal (tax) benefits that would enhance the City's ability to provide these services to the proposed development.

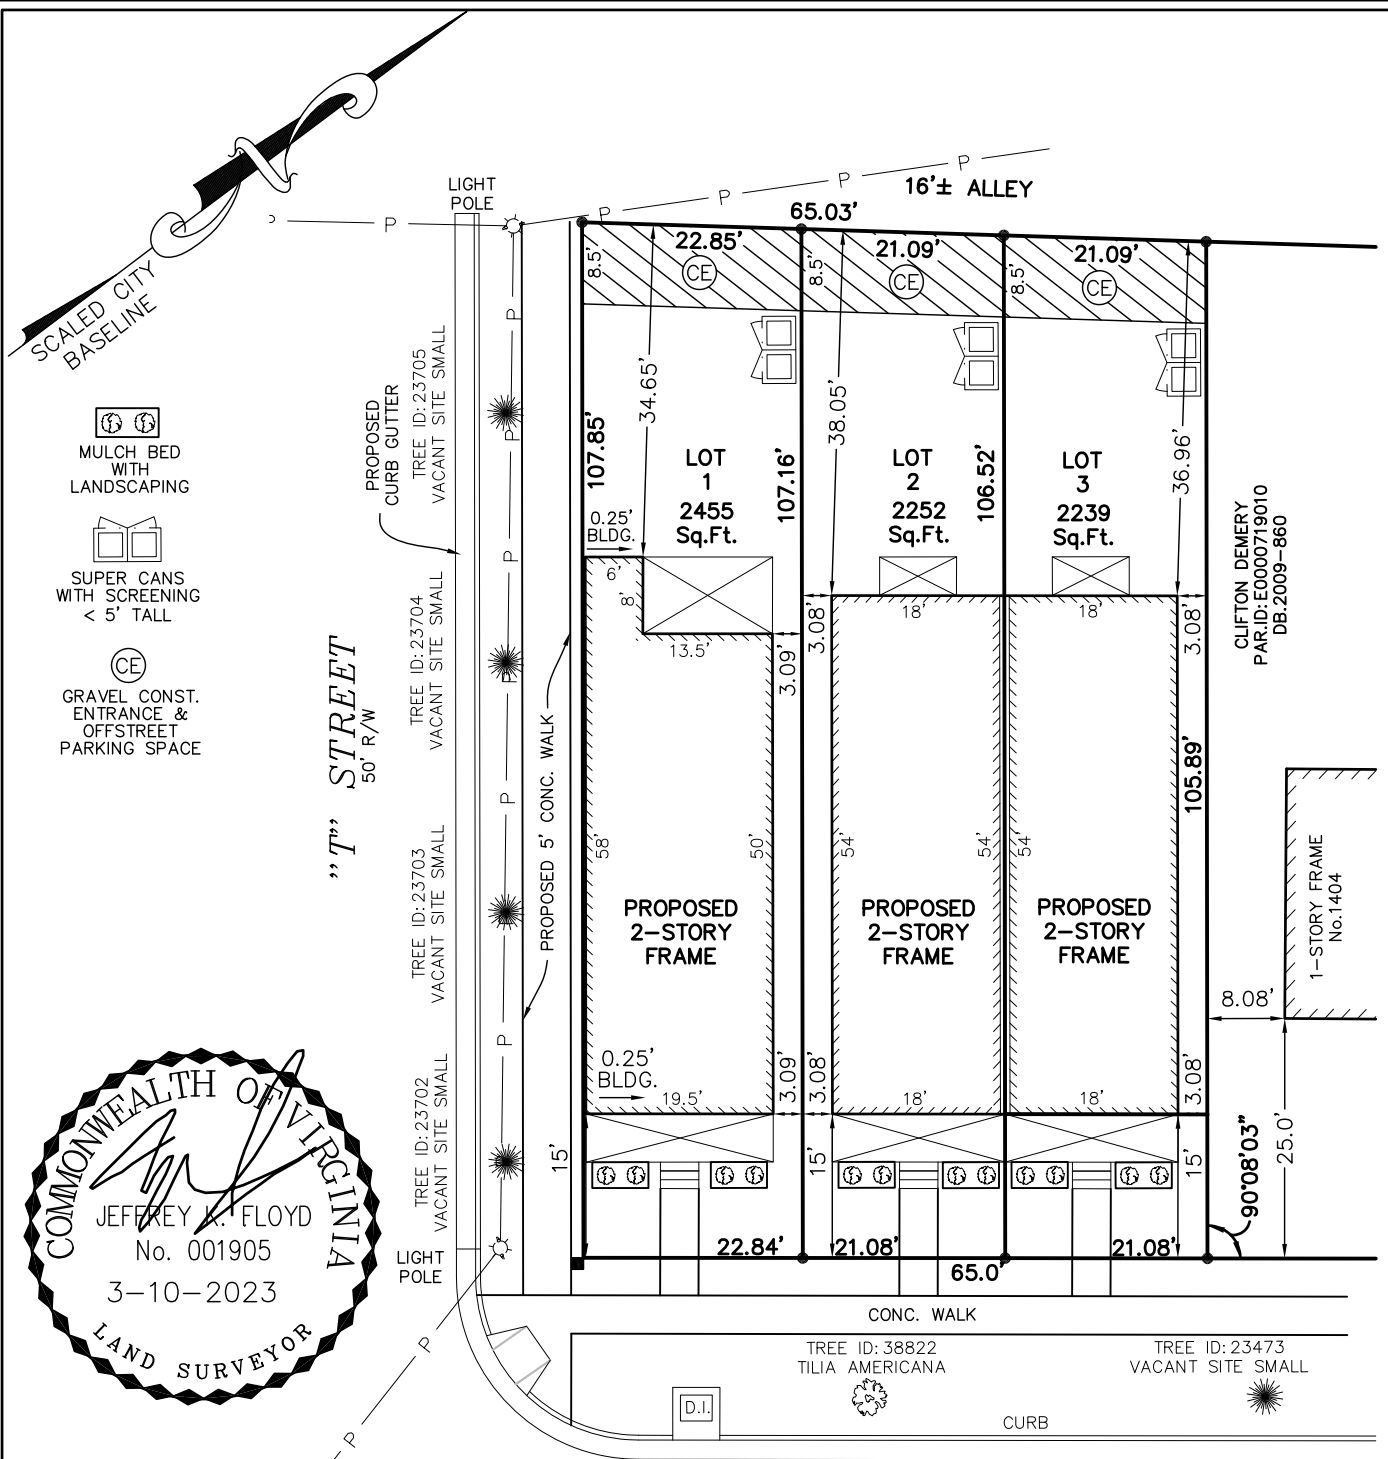

- ***Interfere with adequate light and air.***

The light and air available to the subject and adjacent properties will not be affected. New construction would be consistent with the preexisting buildings and provide setbacks that are consistent with character of the immediate neighbors and the surrounding area.

## **Summary**

In summary, the applicant is enthusiastically seeking approval for the construction of three (3) single-family dwellings on the Property. This proposal represents an ideal, small-scale urban development for this location. The SUP is consistent with current planning guidance applicable to the neighborhood and the City at large. In exchange, the quality assurances conditioned through the SUP would guarantee the construction of higher quality new single-family dwellings than might otherwise be developed by right. This would contribute to the vibrancy of the block through the provision of traditional neighborhood design that is consistent with the historic development pattern of the surrounding neighborhood.
