Title

To authorize the special use of the property known as 10 South Rowland Street for the purpose of a multi-family dwelling, with off-street parking, upon certain terms and conditions.

Body

O & R Request

DATE: May 16, 2023 **EDITION:** 1

TO: The Honorable Members of City Council

THROUGH: The Honorable Levar M. Stoney, Mayor (Mayor, by Request)
(This in no way reflects a recommendation on behalf of the Mayor.)

THROUGH: J.E. Lincoln Saunders, Chief Administrative Officer

THROUGH: Sharon L. Ebert, Deputy Chief Administrative Officer for Economic
Development and Planning

FROM: Kevin J. Vonck, Director, Department of Planning and Development Review

RE: To authorize the special use of the property known as 10 South Rowland Street for the
purpose of a multi-family dwelling, with off-street parking, upon certain terms and
conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 10 South Rowland Street for the
purpose of a multi-family dwelling, with off-street parking, upon certain terms and conditions.

REASON: The applicant is requesting a Special Use Permit which would allow for a six-unit
multi-family dwelling, with six, off street parking spaces, within an R-63 Multifamily Urban Residential
District. While the proposed use is permitted within the R-63 zone, the application does not meet the
requirements for lot area and side yard width. A Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning
Ordinance, the City Planning Commission will review this request and make a recommendation to City
Council.

BACKGROUND: The property is located in the Fan neighborhood on South Rowland Street,
between West Main and West Cary Streets. The property is currently a 4800 sq. ft. (.11 acre) parcel
of land, improved with a 1,866 sq. ft., two story residential building constructed, per tax assessment
records, in 1910.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Community Mixed Use. This designation is defined as a "Cluster of medium-density, walkable commercial and residential uses that provide neighborhood services to nearby residential communities and sometimes feature regional attractions."

Intensity: Buildings generally ranging from two to six stories, based on street widths and depending on the historic context and stepping down in height adjacent to residential areas, as necessary. New buildings that are taller than historical buildings should step back from the build-to line after matching the height of the predominant cornice line of the block.

Primary Uses: Retail/office/personal service, multi-family residential, cultural, and open space.

Secondary Uses: Single-family houses, institutional, and government. (p. 58)

The current zoning for this property is R-63 Multifamily Urban Residential District. The surrounding land uses include primarily residential with institutional and commercial uses nearby on Cary and Main Streets. The proposed density is 6 units upon .11 acres, or 54 units per acre.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.

BUDGET AMENDMENT NECESSARY: No

REVENUE TO CITY: \$1,800 application fee

Special Use Report:

10S Rowland Street

10 S Rowland Street ("The property") is located on the west side of Rowland Street between Cary Street and Main Street in the Fan District. It is bounded by an alley to the north and the south, by Rowland Street to the east and by 2112 W Cary Street to the west. The property consists of 0.11 acres and is zoned R-63. The current use for the Property is single family.

The proposed plan would demolish the existing 1866 sf building and rebuild a three story six unit apartment building with approximately 8,500 sf of heated space, or roughly 1250 sf per apartment. There will be two 1st floor units that will contain 2 bedrooms and 2 baths. The second and third floor will have four units that will consist of two bedrooms and 2.5 baths. The second floor will contain the living space for each apartment and the third floor will contain the bedrooms and bathrooms for each apartment. The existing garages in the rear of the property will be demolished and a total of six onsite parking spaces will be provided.

The project will not be detrimental to the safety, health, morals and general welfare of the community.

Parking is being provided in accordance with the zoning ordinance. The level of density is commensurate with the current and historic patterns of this district. The project will not tend to create congestion in streets, roads, alleys, and other public ways and places in the area involved.

All work will be done in accordance with local building codes and will not create hazards from fire, panic, or other dangers.

There is no concentration of population which could cause overcrowding of land and undue concentration of population.

The proposed project will not adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposals, transportation or other public requirements, conveniences and improvements.

The project will not interfere with adequate light and air.
