RE: To authorize the special use of the properties known as 219 South Stafford Avenue and 2329
Parkwood Avenue for the purpose of twenty-six (26) single-family attached dwellings, upon
certain terms and conditions.

ORD. OR RES. No. ____

PURPOSE: To authorize the special use of the properties known as 219 South Stafford Avenue and 2329
Parkwood Avenue for the purpose of twenty-six (26) single-family attached dwellings, upon certain terms
and conditions.

REASON: The applicant is requesting a Special Use Permit which would allow for the construction of
twenty-six (26) single family attached dwellings within an R-63 Multifamily Urban Residential District.
While single family attached dwellings are a permitted use within the R-63, the proposed does not meet the
feature requirements for lot area and width, side yards, rear yards, lot coverage, and frontage for attached
dwellings. A Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning
Ordinance, the City Planning Commission will review this request and make a recommendation to City
Council.

BACKGROUND: The properties located in the Fan neighborhood on Stafford and Parkwood Avenues. The properties together, are currently a combined 40,946 sq. ft. (.94 acres). The parcels are improved with surface parking lots. The application is for twenty-six (26) single family attached dwellings.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Neighborhood Mixed Use. This designation is defined as a "Existing or new highly walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses."

Intensity: Building heights are generally two to four stories. Buildings taller than four stories may be found along major streets. Parcels are generally between 1,500 and 5,000 sq. ft.

Primary Uses: Single family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space.

Secondary Uses: Large multi-family buildings (10+units), retail/office/personal service, institutional, cultural, and government. (p. 56)

The current zoning for this property is R-63 Multifamily Urban Residential District. The surrounding land uses include primarily residential with some commercial uses nearby and Interstate 195 directly to the south. The density of the proposed is approximately 26 units per .94 acres or 27 units per acre.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.

Re: 219 South Stafford Ave and 2329 Parkwood Ave Request for Special Use Permit

Dear Mr. Vonck,

Please accept this letter as the Applicant's Report for the Special Use Permit application for the two parcels located at 219 S Stafford Ave (W0001033046) and 2329 Parkwood Ave (W0001033035). With this application the developer, Audeo Partners LLC, is petitioning City Council for a SUP to allow for development of 26 single-family attached dwellings on the properties. This application follows a preliminary meeting with you and your office on November 15, 2022.

Existing Site Conditions

The properties are two parcels currently owned by Dominion Energy located in the Fan District. 2329 Parkwood Ave is a 0.19-acre parcel at the southeast intersection of Parkwood and S Stafford Avenues. 219 S Stafford Ave is a 0.75-acre parcel separated by an alley just south of 2329 Parkwood Ave. Both parcels are currently zoned in the R-63 Multifamily Urban district and currently are used as surface parking lots for Dominion Energy.

A Dominion Energy facility is located across S Stafford Ave to the west. Other properties to the north and east are a mixture of multifamily and attached townhomes. To the south of 219 S Stafford is the Downtown Expressway.

Current Zoning

The properties are currently zoned R-63 Multifamily Urban. the intent of the R-63 district is to encourage development of medium density neighborhoods comprised of a mix of residential uses and to promote a pedestrian oriented urban environment that is primarily residential in character, but that includes limited nonresidential uses that serve many of the day-to-day convenience needs of neighborhood residents and provide opportunities for residents to live and work within the neighborhood. The R-63 district permits single-family detached and attached, two-family, and multifamily dwellings. Limited commercial uses are also permitted on corner lots.

Under current zoning, a maximum of 40 multifamily dwelling units, 17 single-family attached dwellings, or 8 single-family detached dwellings would be permitted on the properties.

Proposal

Should this SUP be granted, the ordinance would authorize a subdivision of these two parcels into 26 fee simple lots will follow. Six parcels would be created at 2329 Parkwood Ave and 20 would be created at 219 S Stafford Ave. Of these 20 parcels at 219 S Stafford Ave, five would have frontage along the street, and the remainder would be interior parcels without street frontage.

A three-story attached dwelling would be constructed on each of the parcels with floor areas approximately between 2,100 and 2,400 SF. Each dwelling would also contain one parking space located in an enclosed garage. While the final designs have not been finalized, the dwellings will be constructed with quality materials in a manner that is complementary to the architecture of the existing neighborhood.

Single-family detached dwellings must be located on lots of not less than 3,000 square feet in area with a width of not less than 25 feet. Single-family attached dwellings must be located on lots of not less than 2,200 square feet in area. Lot width may not be less than 16 feet, except that the width of any lot at the end of a series of attached units may not be less than 19 feet. Multifamily dwellings must be located on lots of not less than 4,000 square feet in total area and not less than 1,000 square feet in area for each dwelling unit. Under current zoning, a maximum of 40 multifamily dwelling units would be permitted.

Master Plan for Future Land Use

The Richmond 300 Master Plan designates these parcels for Neighborhood Mixed-Use. These properties are located in existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses. These areas feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics. Future development should generally complement existing context. Setbacks, plazas, and parks create a sense of place and community gathering areas.

Recommended primary uses are single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space. We believe that the proposal for single-family detached dwellings are consistent with Master Plan recommendations for the development of the properties.

Public Outreach

The proposed request for a special use permit was presented to Stephanie A. Lynch, Council Representative for the 5th District, on Friday, November 28, 2022. She was supportive of the overall design and density of the proposal but was generally concerned with recently completed new developments and their impact on parking in the neighborhood. In order to not add to the parking issues, she recommended providing as much off-street parking as feasible on the proposed development.

We also presented the proposal to the Your Neighbors Uptown Association at their meeting on November 29, 2022. The membership received the proposal enthusiastically and provided no negative feedback regarding the proposed development.

City Charter Conditions

We trust that you will agree with us that this proposed SUP meets the City Charter criteria for the granting of SUPs as the project will not

- (i) be detrimental to the safety, health, morals and general welfare of the community involved;
- (ii) tend to create congestion in streets, roads, alleys and other public ways and places in the area involved;
- (iii) create hazards from fire, panic or other dangers;
- (iv) tend to be overcrowding of land and cause an undue concentration of population;
- (v) adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements; or
- (vi) interfere with adequate light and air.

Thank you for your consideration of this Special Use Permit. Please feel free to contact me at lory@markhamplanning.com or (804) 248-2561 if you have any questions or require additional materials to process the application.

Very Truly Yours,

Lory Markham
