

September 15th, 2023

Chairman Rodney Poole
Richmond Planning Commission
900 East Broad Street
Richmond, Virginia 23219

Chairman Poole,

On behalf of RVA YIMBY, we are writing in support of Ordinance 2023-243 authorizing the special use of the property at 2200 Ingram Avenue for a residential development with up to 250 units.

We believe the Oak Grove neighborhood is well positioned to handle additional density past its R-5 zoning and that this project aligns with other redevelopments like the nearby Port City Apartments and Model Tobacco Flats, which have re-purposed former institutional and industrial tracts that had sat vacant to dense residential use.

As outlined in the the Richmond 300 plan, the larger Manchester area is to be characterized as a 'priority growth node' and because the Oak Grove neighborhood specifically is to remain residential per the future land use map, having a variety of housing types will allow for natural neighborhood-oriented growth that complements the higher densities and mixed uses envisioned along Rt. 1 and Commerce Rd.

Ordinance 2023-243 will add 250 desperately needed, affordable homes to our housing market and in recognizing the housing crisis that the City of Richmond declared in April of this year, we ask that this body support the paper.

Your neighbors,

Andrew Bryant & Will Wilson
City of Richmond Co-Leads

From: [Brock Hall](#)
To: [PDR Land Use Admin](#); [Floyd, Tavares M. - City Council](#); [Philipsen, Sven J. - City Council](#)
Subject: 2200 Ingram Avenue SUP (ORD. 2023-243)
Date: Sunday, September 17, 2023 5:49:44 PM

CAUTION: This message is from an external sender - Do not open attachments or click links unless you recognize the sender's address and know the content is safe.

Dear Members of the Richmond City Planning Commission,

I am writing to express my views on the proposed Special Use Permit (SUP) for the development around 2200 Ingram Avenue.

I support the idea of higher-density, mid-rise, mixed-use development. My concern, however, lies in the height restrictions mentioned in clause "(c)" of the proposed SUP. Specifically:

- The height for special use in section 3(a)(i) is limited to four stories.
- The height in section 3(a)(iii) is restricted to two stories.

I believe that increasing the maximum allowable height to, for example, six stories, can lead to a more efficient use of space, potentially freeing up land for community activities or additional green spaces. It can also enable potential mixed-use development that creates local jobs, reducing the need for longer commutes.

Having lived in the Manchester area on-and-off since 2012, I have witnessed the transformation of empty plots into low-rise buildings and townhomes. While it's good to see development, I often think about how much public space has been sacrificed that could have been preserved had we opted for higher density housing.

It's my understanding that local residents are requesting an acre to be set aside for community use. Given the current height restrictions, it becomes a choice between sacrificing community land or affordable housing. A more flexible approach to building height could alleviate this issue, enabling us to accommodate both.

While I support the current SUP, I believe there are aspects that could be improved. I urge the Commission to consider these points not just for the current development but also for future projects in the city.

Thank you for your time and consideration.

Sincerely,
Brock

Re: Proposed Special Use Permit – 2200 Ingram Ave (Former Oak Grove School Site)

I am writing to offer support for the proposed rezoning of 2200 Ingram Avenue, to redevelop the former Oak Grove School into a new apartments, townhomes, and greenspace.

I welcome the proposed redevelopment, which will reduce crime in the area by removing a dangerous and blighted structure, while providing new high-quality affordable residential options in Oak Grove for both young families, retirees and longtime residents in the neighborhood.

The developer has held extensive public engagement, incorporated ideas from neighbors, and gone above and beyond in bringing community benefits to the table.

This project will be a complement and an asset to our community, and it will bring new attainable homes to the area.

Please include this letter of support in consideration of the proposed rezoning of 2200 Ingram Avenue.

Sincerely,

Re: Proposed Redevelopment of Oak Grove School Site at 2200 Ingram Avenue

I am the President of the **Oak Grove Civic Association** and I am writing this letter to confirm strong neighborhood support of the proposal from Lynx Ventures to purchase and redevelop the former Oak Grove School into a new affordable apartments and townhomes. As the long-time president of the Oak Grove Civic Association, I have seen the crime and negative effects caused by the neglect of the vacant school building on the site.

Accordingly, we welcome the proposed redevelopment, which will reduce crime in the area by removing a dangerous and blighted structure, while providing new high-quality residential options in Oak Grove for both young families, retirees and longtime residents in the neighborhood. This project will be a complement and an asset to our community, and it will bring new homes to the area which will in turn generate and support much-needed commercial development for South Richmond. This is exactly the type of development the City of Richmond should be encouraging.

I respectfully request that you include this letter of support in consideration of the proposed redevelopment of the former Oak Grove School.

Sincerely yours,

A handwritten signature in black ink that reads "Rosa Jones". The signature is written in a cursive, flowing style.

Dear Richmond City Council,

My name is Charles Page, and I support the new development at Oak Grove. There is an abandoned school sitting where the new housing development will be built that's inhabited by homelessness, prostitution, and drug addiction. I have a grandmother that lives on 2020 Ingram Ave, and the number of people I see coming out of that abandoned school is ridiculous. The number of empty condom wrappers around the school is atrocious, meaning people are having sex in the building, courtyard, and playground. The new housing development will replace the Oak Grove abandoned school and bring affordable homes to struggling people trying to find a place to call home.

Petition to Redevelop 2200 Ingram Ave

We, the undersigned residents of the City of Richmond, hereby petition the Richmond City Council to accept the proposal from Maggie Walker Community Land Trust and Lynx Ventures to purchase and redevelop the vacant Oak Grove School site. We hereby acknowledge our support for the proposal to redevelop the site into high-quality apartments with rents starting at \$800, and 10-15 townhomes available for purchase under the Community Land Trust Model.
