Hi, David-

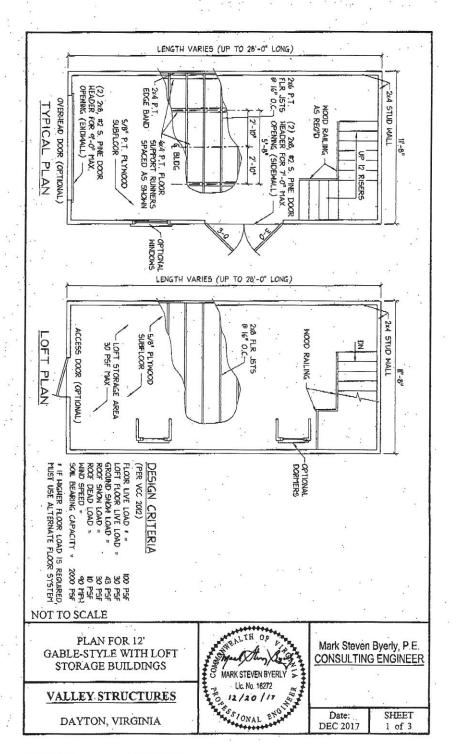

I would like to revise my previous request. I would now like to seek exemption from the designation that our property has three front yards so that we might put a structure that would be no closer than 10' to all property lines rather than no closer than 30' to all property lines.

As our lot is a corner lot, it fronts to three streets (though one is an alleyway). As currently designated, the only viable location for any type of structure (i.e. a shed) would be standing in the middle of the yard. Granting this exception would allow us to place a structure in a place that is less obstructive to the yard area while still respecting the standard regulations regarding distance of structures from property lines.

Attached you will find a plat indicating our property lines.

Thanks and please let me know what else you need from me.
