## Capital Project Dashboard

The dashboard features a map of Richmond, Virginia, with various council districts highlighted in different colors. A legend on the left lists 25 capital projects, each with a corresponding color-coded icon. The map shows the locations of these projects across the city, including areas like Tuckahoe, Brookland, Lakeside, and Varina. A dropdown menu at the top right allows users to filter projects by council district (1-9) or 'All Districts'. The map includes standard navigation controls like zoom in/out and a search bar.

The City of Richmond Capital Project Dashboard is an interactive data and map tool that allows you to explore active capital improvement projects throughout the community. The dashboard serves as a centralized location for capital project information from all city departments and is updated on a quarterly basis. Projects displayed here have received some amount of funding and are in various phases of planning & design or construction, or have been completed as of the most recent update to the dashboard.

- Arthur Ashe Boulevard Bridge Replacement

### Jahnke Road Improvement Project Overview

The Jahnke Road Improvement Project is designed to improve traffic safety, improve traffic flow and enhance overall livability for the residents and users of the Jahnke Road Corridor. Jahnke Road not only carries automobile traffic, but also pedestrians, cyclists, GRTC bus riders and children who attend the three public schools located along the project corridor.

Important project elements within the design will include a shared use path, sidewalks, and landscaping. The existing roadway drainage will be upgraded from an open system with roadside ditches to a closed system with storm sewer pipe and curb and gutter which will eliminate areas slow to drain during prolonged periods of heavy rainfall.

Current funding is available for engineering, right-of-way acquisition and construction.

### Project Status

Construction plans are complete and the project will be re-advertised for construction Late Spring 2023. The acquisition of right-of-way and easements for roadway construction, drainage improvements and utility relocations has concluded by the City Consultant, Stantec, for a total of 84 parcels.

### Project Manager

Welcome to Richmond's

# Shockoe Valley Streets Improvement Project

Welcome to the Shockoe Valley Streets Improvement Project. The purpose of the project is to develop a comprehensive set of transportation improvements to the Broad Street area of Shockoe Valley in Richmond, Virginia.

- Wastewater Treatment Plant (WWTP) Sludge Thickening Building Improvements
- Water Treatment Plant Filter SCADA

# Shockoe Valley Streets Improvement Project

## Project Summary and Scope

Shockoe Valley Streets Improvement smart scale project provides a comprehensive set of improvements in the vicinity of the Broad Street interchange. Some of the corridors and intersections improvements based on Traffic analysis will include Oliver Hill & Venable Street (newly proposed roundabout), Venable St and 18th street (new roundabout), Mosby and Venable St (Roundabout), 17th Street and Broad Street (new traffic signal), MLK bridge, Mosby and "O" Street (new roundabout). Some streets like 18th Street from Balding to Broad and Oliver Hill from Broad will be converted after traffic analysis from one-way to two-way traffic. The goals of this project is to improve safety, improve multi modal Transportation, Environmental Sustainability, Economic development and land use.

VDOT conducted a planning study in 2012-2013 of the I-95/64 Overlap area in the City of Richmond and Henrico County. The purpose of this study was to identify potential transportation and safety improvements within the study area. Several potential improvements were identified, including the "I-95 Broad Street Interchange Area" project. In June 2016 this project was selected as a HB-2 project (now called smart scale) and awarded \$28,043,000 in federal allocations in VDOT's Six-Year plan.

Please check the project website at [www.shockoevalleystreets.com](http://www.shockoevalleystreets.com) for regular updates on the Project development.

## DIVISION 3. - WEBPAGES FOR DEVELOPMENT AND CAPITAL IMPROVEMENT PROJECTS

### Sec. 2-1336. - Definitions.

For purposes of this division, the following words, terms and phrases shall have the meanings ascribed to them in this section, except where the context clearly indicates that a different meaning is intended:

*Active project* means a project that is funded fully or partially and is being developed and implemented.

*City expenditure* means a disbursement of City funds, a granting of an interest in or other right to use City-owned property, the provision by the City of a tax credit, rebate, or similar incentive, or the provision of any other City asset or in-kind service with monetary value.

*Pending project* means a project that is funded fully or partially and is in the scoping, design, or planning phases.

*Project* means any one or more of the following:

- (1) A capital improvement project included in the City's capital improvement program for which at least \$5,000,000.00 has been appropriated or for which the total planned appropriation over the course of the project is \$5,000,000.00 or more.
- (2) A project to attract, retain or expand a business, or a group of affiliated businesses, within the boundaries of the City of Richmond for the purpose of job creation, job enhancement, or job retention that involves a significant contribution from the City.
- (3) A project that results in the development or redevelopment of a specific geographic area within the boundaries of the City of Richmond that involves a significant contribution from the City and is not a project described in subsection (1) or (2) of this definition.

*Significant contribution* means one or more City expenditures reasonably attributable to any phase of a project, whether made directly to a business or to a political subdivision, that, when considered together, total \$3,000,000.00 or more.

(Code 2015, § 2-1350; Ord. No. 2015-192, § 1, 7-25-2016)

**Cross reference**— Definitions generally, [§ 1-2](#).

### Sec. 2-1337. - General requirements.

The department of information technology shall maintain on the website of the City a webpage entitled "development and capital improvement projects." The purpose of this webpage is to provide an internet location at which public information concerning projects is electronically published for public access. For each project, the webpage shall contain a hyperlink to a subsidiary page dedicated to that project. The department of information technology shall establish procedures whereby, as the department of information technology deems appropriate, either (i) the employee or employees with responsibility for managing a project or an aspect of a project submits the information required by [Section 2-1338](#) to the department of information technology on a regular basis and the department of information technology updates the subsidiary webpage for that project or (ii) the employee or employees with responsibility for managing a project or an aspect of a project update the subsidiary webpage for that project with the information required by [Section 2-1338](#) on a regular basis.
