O&R Transmittal

DATE: October 24, 2023

TO: The Honorable Members of City Council

FROM: Kevin J. Vonck, Director of Planning & Development Review

RE: To authorize the special use of the property known as 1912 West Cary Street, for the purpose of a mixed-use development, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: The applicant is requesting a Special Use Permit to authorize a mixed-use development within an Urban Business District. While a portion of the proposed uses are permitted, the plans overall do not meet the current building height and off-street parking space width requirements. A Special Use Permit is therefore required.

BACKGROUND: The property is located in the Fan neighborhood on West Cary Street at the corner of West Cary and South Granby Streets. The property is currently a 13,939 sq. ft. (.3 acre) parcel of land. The City's Richmond 300 Master Plan designates a future land use for the subject property as Community Mixed Use, which is defined as a "Cluster of medium-density, walkable commercial and residential uses that provide neighborhood services to nearby residential communities and sometimes feature regional attractions."

Intensity: Buildings generally ranging from two to six stories, based on street widths and depending on the historic context and stepping down in height adjacent to residential areas, as necessary. New buildings that are taller than historical buildings should step back from the build-to line after matching the height of the predominant cornice line of the block. Primary Uses:

Retail/office/personal service, multi-family residential, cultural, and open space. Secondary Uses: Single-family houses, institutional, and government.

The current zoning for this property is Urban Business. All adjacent properties are located primarily within the same UB District with R-7 Single and Two Family Urban Residential Districts to the north of the property. The area is generally single family residential, with some multi-family residential and small, neighborhood commercial uses present in the vicinity.

COMMUNITY ENGAGEMENT: The Fan Area Business Alliance and The Uptown Association were notified of the application; additional community notification will take place after introduction.

STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL: Richmond 300 Master Plan; Will be considered by Planning Commission on February 5, 2024 (tentative)

FISCAL IMPACT: \$2,400 application fee

**SUP Application Report for
1904 -1912 West Cary Street
for a new 19-room Boutique Hotel**

Twelve years ago, Shyndigz, a cake bakery, was established in the Libby-Patterson shopping area, and only after a few years moved to 1903 West Cary Street. While the move was risky, with its clientele at the time mostly from near west end neighborhoods, the business needed to expand. The move proved successful, and a few years later, the owners again expanded their business to 1831 West Cary Street, and subsequently opened The Fancy Biscuit at 1829 West Cary Street.

As their success has continued, they now own each of these buildings, and their operations and sales have expanded. They currently have a restaurant space at 1903, a market area at 1831, another restaurant at 1829, a test kitchen on the second floor of 1829-1831, and the businesses employ forty-five to fifty people. The owners have recently purchased 1904-1912 West Cary Street and are relocating the market to the larger 1912 location to expand its products and add a coffee bar.

The owners are now looking to build on their brand by adding a small boutique-style hotel adjoining their new market on the 1904-1912 lot. As proposed, the hotel will have 19 guestrooms, many of which will have balconies and kitchenettes. The first floor will have a small lobby to be used also as a flexible event space with a 49 person occupancy. The number of rental party events will be limited to 12 per year.

A sidewalk-facing exterior arcade space will create an engaging interface with the public, optionally expanding the market to the public walkway. While events will be able to expand under the arcade canopy, tables and chairs may be simply set on a courtyard patio between the new building and adjacent market with immediate access to the adjacent coffee bar. The courtyard will be the primary access to both the hotel and the market. In this outdoor seating space, market customers will be able to enjoy coffee, pastries, or other prepared foods, as the courtyard will have the same flexibility as the arcade. While the owners may display their wares outdoors and expand their flower displays, the market may respond to seasonal holidays or minimally expand to the interior lobby space. The design includes optional signage per current zoning regulations including a marquee extending from the courtyard between the two buildings four feet over the sidewalk, once again engaging the public interface.

The project includes the new hotel with 19 guest units and a multipurpose space on the first floor. Additionally, the permitted market exists at 1912 West Cary Street, and will encompass about 4300 square feet of market and retail space including a flower counter, bakery counter, coffee counter, stock, storage, built-in refrigerators, freezers, and a back-of-house slicing and packaging table.

Current Zoning

The 1900 block of West Cary Street Street is zoned UB PO3. From the Zoning Ordinance:

“The intent of the UB Urban Business District is to encourage business areas with a densely developed pedestrian oriented urban shopping character;” however, all adjacent properties are non-forming.

UB permits specialty food and beverage stores, restaurants, tearooms, cafes, delicatessens, ice cream parlors and similar food and beverage service establishments, retail stores and shops, and tourist homes. The maximum height permitted is 28 feet.

“The minimum number of off-street parking spaces required for uses located in the PO-3 district shall be as follows:...”

"Retail stores and shops, shopping centers, food stores...: one space per 540 square feet of floor area;”

“Restaurants, theaters, and similar uses: one space per 270 square feet of floor area;”

“Tourist home, hotel or motel: one space per guestroom.”

Richmond 300 Master Plan

Twenty-six years ago, the Cary Street Revitalization Committee published its small area revitalization plan. Over the following 15 years, thinking that it could promote a mix of uses on the block, one of the primary goals of the Revitalization Committee was to create high density housing on the gas station site at West Cary Street and South Meadow Street, immediately adjacent to the proposed market/boutique hotel project. According to the Richmond 300 Master Plan, this location is in a micro-node, “a notable place in a neighborhood that provides goods and services primarily to the immediate residents but may also attract visitors.” The Future Land Use Map labels this location as Community Mixed Use, which is a “cluster of medium-density, walkable commercial and residential uses that provide neighborhood services to nearby residential communities and sometimes feature regional attractions.” The “Intensity” of areas per Community Mixed Use is described as “Buildings generally ranging from two to six stories, based on street widths and depending on the historic context.” More recently, three-story construction has been built in the 1700, 1900, 2000, 2100, and 2200 blocks, with several new three-story buildings proposed in adjacent blocks. As noted in the master plan, the proposed new building is four stories and “step(s) back from the build-to line” in response to adjacent properties by “matching the height of the predominant cornice line of the block.”

Objective 4.1

Create and preserve high-quality, distinctive, and well-designed neighborhoods and Nodes throughout the city.

The new infill building will be connected to an existing building, a former liquor store currently permitted as a market. The general massing is intentionally narrow at the street face, maintaining a profile similar to the scale of many historic structures in the city. The new building site design includes a +/- 13 foot courtyard opening to the street, creating a transparent public space where people will be able to have coffee, dessert, or other take out items.

Objective 11.2

Implement equitable economic development strategies to expand inclusivity and opportunity.

As of September 21, 2022, the owners' proximal businesses employed about 50 people in their food service, baked goods production, and marketing group. These include servers, cooks, bakers, retail workers, food testing chefs, a team of merchandising artists, and logistic managers.

Objective 11.3

Increase the number and support the growth of small businesses, start-ups, and women-owned and minority-owned businesses.

The company is a small business, 50% woman-owned by Nicole Jessee. Her husband, Bryon Jessee is the other owner who manages expansion, contracts, and logistics. While Nicole is the creative director, her imagination has turned an at-home baker operation into a regional business destination.

Objective 12.1

Maintain, grow, and market Richmond's tourism attractions.

While Shyndigz and its adjacencies are currently creating a great neighborhood place, already attracting people from out-of-town for cake and an experience, the current plans call for enhancing this micro-node location.

Objective 12.3

Increase the availability and options for lodging in the city. Encourage the development of hotel rooms in Nodes.

This boutique hotel will encourage and add to the variety of hotel rooms in the city.

The project will provide nine on-site parking spaces, and four on-street spaces along 91' of parallel parking frontage on West Cary Street. Of note is that 30% of the staff walk to work, 20% ride bicycles, and 10% take the bus.

West Cary Street, Route 147, is a major state highway. The Number 5 GRTC bus line runs west on West Main Street and east on West Cary Street every thirty minutes. The downtown bus stop is diagonally across the street, and additional bus routes on the block include the 78 and 77, both of which connect to the Pulse Rapid Transit. VCU, Strawberry Street, Carytown, and Byrd Park are within a 10 to 15 minute walk, and a 20 minute walk reaches the Virginia Museum. With a Walk Score of 90, this location is a "Walker's Paradise".

The application for the special use has eight specific requests:

1. the hotel with 19 guest rooms
2. four stories of height of about 58 feet plus roof access
3. the lobby/event space limited to 49 seats
4. the marquee between the buildings
5. outdoor seating at the arcade and courtyard
6. market sales in the hotel lobby/event space
7. limit on-site parking to seven spaces with five or six additional off-site spaces
8. expand permitted signage area.

The proposed special use will not:

1. be detrimental to the safety, health, morals and general welfare of the community involved
2. create congestion in streets, roads, alleys and other public ways and places in the area involved
3. create hazards from fire, panic or other dangers
4. tend to cause overcrowding of land and an undue concentration of population
5. adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements or
6. interfere with adequate light and air.
