(l) The Licensee shall provide written notification to the City Assessor, the Director of Finance and the Director of Public Works of the new owner’s name and mailing address immediately upon transferring any ownership or encroachment rights to another party.

RE: **PROPOSED TEMPORARY ENCROACHMENTS INTO THE PUBLIC
RIGHT OF WAY FOR OUTDOOR DINING AND ITS AMENITIES ALONG
N. 17th STREET BETWEEN E. MAIN STREET AND E. FRANKLIN STREET**

ORD. OR RES No. _____

PURPOSE: To allow each property along the eastern side of the eastern portion and the western side of the western portion of N. 17th Street between E. Main St. and E. Franklin St. to temporarily encroach into the public right of way a maximum of 15' along their frontage with outdoor dining areas and associated amenities of outdoor dining.

REASON: To allow restaurants within this area to begin offering outdoor dining services within the public right of way while survey plats and details are finalized for outdoor dining and other encroachments for each outdoor dining request.

RECOMMENDATIONS: The Department of Public Works offers no objections to the proposed encroachments, and requests that any property owner wishing to establish temporary outdoor dining as authorized by this ordinance be subject to, and including without limitation, the following terms and conditions:

1. All incidental costs to the outdoor dining encroachment are the responsibility of the property owner, including without limitation, utilities, signs, right-of-way monumentation, maintenance of the encroachment, etc., as directed by City agencies.

2. The property owner(s) shall provide liability insurance as required or established by the City in a form acceptable to the City and shall maintain the liability insurance in effect for the life of the temporary encroachment.
3. This Outdoor Dining Encroachment is subject to the 17th Street Market Sidewalk Café requirements adopted by UDC 2019-06 (adopted January 2019).
4. The temporary rights granted by this ordinance will automatically expire on December 31, 2019 unless they are extended in writing by the Director of Public Works for an additional period of no more than six months.
5. Outdoor Dining ordinances that may be adopted and in effect for individual properties will supersede the requirements of this ordinance.
6. The property owner(s) is responsible for all costs for repair, relocation, or replacement of the encroachments in the event of damage or movement due to, but not limited to approved vehicular travel.
7. The applicant(s)/owner(s) shall secure a Work In Street Permit (WISP) to construct these improvements within City right-of-way. The encroachment shall be maintained and operated in a manner satisfactory to best management/construction practices and as directed by the Directors of Public Works and Parks and Recreation Director.
8. Each property owner within the limits of this area as defined by this ordinance will be allowed to install and utilize the outdoor dining encroachment as established by this ordinance upon signing an agreement to be bound by the conditions of this ordinance.
9. The outdoor dining encroachment is subject to the certain Sidewalk Café requirements found or referenced in City Code Section 24-249(c) and Section 24-250, excluding 24-250(b) in its entirety and excluding reference to barriers in 24-250(c) if they are securely attached to the sidewalk.
10. The applicant(s)/owner(s) shall ensure that Zoning requirements due to the additional occupancy load added by the permanent outdoor dining encroachment conforms with City Code Section 30 and other applicable City building codes.
11. The applicant(s)/owners(s) shall maintain a suitable clearance for emergency vehicles along the closed portion of 17th Street and the outdoor dining encroachment.

BACKGROUND:

A priority project of the Shockoe Revitalization Strategy (adopted 2011) was the transformation of the 17th Street Market to a pedestrian public plaza and the extension of outdoor dining from the adjoining businesses as permitted.

The portion of 17th Street that fronts on these properties was previously closed to vehicular traffic by Ordinance 2018-208 for the purpose of creating an urban plaza centered around the 17th Street Market.

In order to provide permanent outdoor dining encroachments to individual property owners, DPW's process requires a City Council Ordinance for each individual property. DPW reviews each application from property owners requiring the following information within the application: 1. A formal request for outdoor dining from the Property Owner; 2. Application Fee; 3. City approved survey plat of outdoor dining encroachment; and 4. Other existing and proposed encroachments on the property.

Since time is of the essence, upon adoption, this Ordinance will allow business owners to immediately install temporary outdoor dining encroachments to begin utilization of the public right of way for outdoor dining purposes during the peak period of the year.

While these temporary outdoor dining encroachments are established, DPW and the business owners will continue to work through the process of creating these into permanent outdoor dining encroachments. Temporary rights will expire on December 31, 2019 if permanent encroachments have not been adopted or if the property owner has not received an extension of time from the Director of Public Works.
