**RE:** To authorize the special use of the property known as 5500 Campbell Avenue for the purpose of four single-family detached dwellings, upon certain terms and conditions.

**ORD. OR RES. No.**

**PURPOSE:** The applicant is requesting a Special Use Permit for the purpose of four single-family detached dwellings, which use, among other things, is not currently allowed by Section 30-410.4, concerning lot area and width, of the Code of the City of Richmond (2020), as amended. A Special Use Permit is therefore required.

**BACKGROUND:** 5500 Campbell Avenue is a 32,250 sq. ft. (.74 acre) parcel of land. The property is located in the Fulton neighborhood, between Vinton and Heflin Streets. The property is currently improved with a one-story, 960 sq. ft., single-family detached dwelling, constructed, per tax assessment records in 1961.

The City’s Richmond 300 Master Plan designates a future land use for the subject property as Residential which is defined as a “Neighborhood consisting primarily of single-family houses on large- or medium-sized lots more homogeneous in nature.” Intensity: Buildings are generally one to three

stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing units per acre.

Primary Uses: Single-family houses, accessory dwelling units, and open space.

Secondary Uses: Duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural. Secondary uses may be found along major streets.

The current zoning for this property is R-5 Single-Family Residential District. Adjacent properties are located within the same R-5 District. The density of the proposed development, overall, is approximately 5.4 units per acre.

**COMMUNITY ENGAGEMENT:** The Church Hill Central Civic Neighborhood Association was notified. Letters of notification shall be sent to nearby property owners, and a sign noting this request shall be placed on the property once the ordinance is introduced to City Council.

**STRATEGIC INITIATIVES AND OTHER GOVERNMENTAL:** Richmond 300 Master Plan

**FISCAL IMPACT:** The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

## **APPLICANT REPORT**

June 13, 2022

Kevin Vonck, Director  
Department of Planning and Development Review  
900 East Broad Street. Suite 511  
Richmond, Virginia 23219

**RE:** Applicant Report for Special Use Permit submission for the property located at 5500 Campbell Street (Parcel Number E0100198031)

Dear Mr. Vonck,

On behalf of Cava Capital LLC("the Applicant"), I am submitting a formal application for a Special Use Permit(SUP) for a property located at 5500 Campbell Street. The applicant requests the Special Use Permit, to authorize the development of four (4) single-family detached homes on the property. The Applicant is requesting City Council's support and approval of this development to allow greater density that will support the applicant's ability and desire to produce and offer four(4) affordable homes to the market. The current zoning(R-5 Residential) requires a lot width of 50 feet, however three of the proposed homes will have widths of 32.5 feet. The fourth lot has a width that meets the zoning requirement.

### **SITE APPROPRIATENESS**

The property (Parcel Number E0100198031) is located at the southeast corner of the intersection of Campbell and Vinton Streets. The property site is situated on a corner lot and currently has one single family home located on site that will be demolished to accommodate the full redevelopment of the site. The property is 150 feet wide by 215 feet in depth equating to approximately 32,250 square feet(.74 areas) of lot area. The rear portion of the property borders a ravine and therefore is not served by an alleyway that would provide rear access to the site.

### **CURRENT ZONING**

The properties are currently zoned R-5 Residential (Single Family), which allows for single family detached dwellings, institutional, community and worship facilities and other primary uses.

- Lots cannot be less than 6,000 sf. (.01147842) in area with a width of not less than 50ft.
- Front yards must be a minimum of 25 ft.; side and rear yards must be at least 5 ft.
- Lot coverage cannot be greater than 35 percent.
- Height shall not exceed 35 ft.

### **COMPATIBILITY WITH CITY MASTER PLAN**

This project aligns with many of the goals and objectives of the Richmond 300 Master Plan ("Master Plan") with respect to its design and scale, as well as, inclusiveness and

equity in housing as the City's population contuse to increase. The Master Plan suggests that this neighborhood landuse be categorized as "Residential". Within the Master Plan this landuse category is described as "Neighborhood consisting primarily of single-family houses on large- or medium-sized lots more homogeneous in nature." The Master Plan also suggests that this future land use designation allow for single-family housing, ... built to a scale and design that is consistent with existing buildings. (p. 54).

The neighborhood in which the property is located is an interesting mix of various lot sizes and housing styles designed and built from the early 1900's to new construction completed in in the past 5 years. The housing mix offers various opportunities to own or rent within the community. The Master Plans vision for inclusive housing clearly states that "By preserving and increasing housing options, Richmond supports existing and new residents, regardless of income". And further states that "as the city grows, Richmond provides options to existing residents, preventing involuntary displacement and reducing housing disparities. Finally, the City aspires to preserve, expand, and create mixed income communities, by...developing new ones— both renter- and owner-occupied— throughout the city. The addition of the fourth home allows the owner/developer to achieve economies of scale to produce a total of four affordable units that are sorely needed to meet current housing demands. From that perspective there are several Master Plans goals and objectives that are achieved by the successful completion of this project which include:

- developing housing at all income levels in and near nodes and along major corridors (Goal 14).
- encouraging the development of a variety of quality housing types to house employees across the economic spectrum (Goal 14).
- creating 10,000 new affordable housing units for low- and very low-income households over the next 10 years. (Objective 14.3)

We believe that this project offers another opportunity for Richmond's residents to "access quality housing choices".

### **CITY CHARTER CONDITIONS**

Approval of the proposed Special Use Permit will allow the redevelopment of the 5500 Campbell Street to accommodate the development of four(4) new single-family homes to include 4 off-street parking spaces. The proposed development will contain 3 lots which do not meet lot width requirements. All other City Charter conditions are met by the proposed development including setback, height and parking, and the owner assures administration and council that the proposed special use will not:

### **Create detriment to the safety, health, morals and general welfare of the community involved.**

The Special Use Permit will allow four single-family homes which will increase density, however should not generate or increase crime, create safety hazards, or jeopardize the health of the existing community.

**Tend to create congestion in streets, roads, alleys and other public ways and places in the area involved.**

The redevelopment of the site will add three(3) units to the block and most likely resulting in addition of vehicles for each new home. However, the project includes the addition of four(4) off-street parking spaces to accommodate the new homes. There are no existing off-street parking spaces for the property or for the adjacent homes along Campbell Street

**Create hazards from fire, panic, or other dangers.**

The construction of the single-family residential units will not require the installation or storage of any equipment that increases the risk of fire.

**Tend to cause overcrowding of land and undue concentration of population.**

The Special Use Permit will allow the addition of one residential unit beyond the by-right development allowed by the code. The applicant is certain that one additional unit will not cause any overcrowding of the property nor a noticeable/significant increase in population.

**Adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements.**

The Special Use Permit will allow the addition of one residential unit beyond the by-right development allowed by the code that will not result in any adverse effects to public facilities and services nor conveniences or improvements.

**Interfere with adequate light and air**

The redevelopment of the site will not produce any substances that would impact the air quality.

**Community Engagement**

The owner has taken time to share the scope of the project with the community and given careful consideration to density concerns. The client has provided project information to representatives of the Fulton Hill Association concerning the intent of the SUP. Client has also informed the City Council Representative – Council President Cynthia Newbille, of the planned SUP submission.
