26	Christie Owens	cgo1010@gmail.com		Yes	
27	Giz Bowe	gizb57@gmail.com		Yes	Consistent enforcement of the speed is the only thing that will stop the culture of speeding, which is rampant all through Richmond. I'm paying taxes. What am I buying?! The negligence on the part of law enforcement is shameful.

29	Joe Cutright	jcut91@gmail.com		Yes	Narrower lanes, wider medians, roundabouts over traffic lights (but more traffic lights over fewer), protected bike lanes, elevated crosswalks, speed tables, more controlled intersections, and more speed cameras are all real solutions that really work, and are supported by a large body of data.

37	Arthur Carpenter	artie65@yahoo.com	804-503-5248	Yes	I used to live at 405 W. 30th St. and move because of all the speeding on Semmes. The road is nothing more than a straight away to and from downtown with minimal stops involved leading people to believe they can go as fast as they want
38	Bill Rose	war9500@aol.com	804-616-7788	Yes	Semmes ave. speeding has been going on for decades. Now is the time for action! WR.

86	Andrea Butler	andrealeebutler@gmail.com	804-350-5510	Yes	I live in Westover Hills and drive on Semmes to work. Right after the speed limit changed from 40 to 30. I got a ticket going 40, as I hadn't made the mental switch yet. Never again. Speed traps off and on for a few weeks could help; they were very effective for me personally.

94	Alex Marten	az.marten@pm.me	804-549-7509	Yes	The number of traffic related accidents and deaths along Forest Hill & Semmes is unacceptable. The state imposes limitations on

					the use of speed cameras. The city might study the reduction of Semmes to a single lane in both directions to see if this might alleviate speeding and reckless driving.
95	Alan Nicholas II	janicholas12@gmail.com	804-432-4700	Yes	We live on 30th street, a block south of Semmes Avenue and that street is an absolute nightmare. Something has got to be done, The Pedestrian crosswalk is a joke and people run the red light constantly; I will only cross the street with my daughter when there's no traffic coming in either direction which is extremely rare. Traffic calming, more tickets, speed cameras, Etc for a multi-pronged approach to keep Semmes Avenue from being a speedway.

100	Barbara Kornhausere	blynnk@gmail.com	973-714-6459	Yes	If something effective would be done, rather than minor fixes, money would be saved and, of course so would lives.
101	Jessica Parker	shylohzmom@gmail.com	801-475-4336	Yes	Something needs to be done to control the speeding and reckless driving down Semmes it is terrifying to drive down this road and I am a homeowner off of 24th and Semmes
102	Chris Crowley	vcupav@gmail.com	804-399-7441	Yes	
103	Thomas Alleman	talleman1@hotmail.com	510-776-1345	Yes	Semmes needs a road diet. One lane for buses and bikes only.
104	Mark Baker	markbaker@bakerdevelopmentresources.com		Yes	I support this initiative but also note that there may also be other viable traffic calming measures in addition to those suggested by this petition.
105	Catherine Allen	catiemo13@gmail.com	954-459-1442	Yes	
106	Elizabeth Roderick	eroderick@earthlink.net		Yes	
107	Barbara Jones	bwjones1@comcast.net		Yes	We drive the speed limit on Semmes and constantly have people flying by us going about 50 to 55 miles an hour. We need multiple speed

					cameras, not just during school hours by the school, where people have to slow down anyway due to the stoplight. Also making Semmes one lane each way for traffic with a turn lane. Malvern and some areas of Patterson Avenue have been changed that way and traffic is definitely slower now.
108	Betty Garrett	bettygarrett611@gmail.com	804-986-0340	Yes	It is dangerous and the speeding needs to stop. The noise is another problem which should be addressed.
109	Cynthia Bettinger	dbettin120@aol.com	804-310-7805	Yes	Also need speed calming on 31st between Semmes and FH.

111	Andy Bristow	andrew.bristow.4@gmail.com		Yes	As a Semmes Ave resident 100% agree, enough is enough. Add features that will slow the rate of traffic.
112	Marshall Pastore	marshalldpastore@gmail.com		Yes	
113	Elizabeth Mallon	lizs999@gmail.com		Yes	
114	Tanya Pruiett	mstanya88@hotmail.com	804-687-4314	Yes	People, our children, and our pets are dying on Semmes Avenue due to inadequate measures to curb constant, excessive speeding. The loss, trauma, and fear caused by these reckless driving deaths, near-deaths, and this property destruction CANNOT be tolerated. Especially when it's preventable! The constant law violations MUST be addressed by better urban planning. Roundabouts, speed bumps, additional traffic lights, cameras all the way down Semmes Ave that auto-issue speeding tickets (not just at the school), or rerouting traffic to make Semmes Ave single lane in each direction (bike lane, parking lane, and only 1 driving lane), or other options must be considered—and effective strategies must be implemented, NOW. These are not simply random vehicular "accidents," but rather preventable incidents caused by inadequate urban planning. Failure to address this known

					and ongoing serious problem amounts to negligence by the city and the state.
115	Lisa Spectar-Dunaway	lisaspecter@yahoo.com		Yes	
116	Robert Pruett	rhpruett@hotmail.com	804-651-4434	Yes	Speeding, reckless driving, and carelessness have turned Semmes Ave into a death trap. Negligence and poor urban planning by Richmond city continue to cause death, property damage, injury, and fear. The city, state, and federal government need to install traffic lights, speed bumps, roundabouts, cameras, or other deterrents to stop the death and destruction

122	Kathryn Kahlson	kmek@comcast.net	804-382-5468	Yes	Please consider more lights, funding more enforcement, traffic circles. Love living in the city. But it's not fair to pay taxes and live in such a high speed, unsafe neighborhood.
