Implementation of *City Code §12-16* has been known to be **challenging**.

Being overly-broad led to resource-intensive, manual redaction processes to comply with privacy laws and confidentiality requirements.

Many contributors across our teams have worked for months to chart a workable path forward.

WHY A WORKABLE SOLUTION MATTERS

- Closes the gap between **policy intent and day-to-day implementation**
- Protects personal information and **ensures legal compliance** based on the process and not a reliance on manual redactions with risk of human error
- Focuses on **taxpayer dollars spending** and makes it easier to **identify spending patterns**
