Residents and Businesses in the area of:

- 17th Street from Main to Dock Streets
- 18th Street from Main to Dock Streets
- E. Cary St from 15th to 19th Streets

RE: Shockoe Bottom Cobblestone Restoration, Phase I

We are pleased to inform you that the Shockoe Bottom Cobblestone Restoration, Phase I Capital Improvement Project will be starting soon. Messer Contracting is the contractor for the project. Construction is scheduled to begin on April 9, 2018 with a contract duration of 240 calendar days.

The project scope is to restore the cobblestone pavement through removal of the asphalt overlay, repair of loose cobbles, reinstallation of missing sections, and installation of a cycle track on the west side of 17th Street. To facilitate the construction, certain areas of the street will be closed and traffic detours may be present.

While this project will restore the character of the area, it may create some temporary inconveniences. We ask that you bear with us during construction. We will strive to minimize any adverse impacts in the area.

If you have any questions, you can contact the City Project Inspector, Mr. Martin West at (804) 363-3819 or the City Project Manager, Mr. Thomas Westbrook, PE at Thomas.Westbrook@richmondgov.com.

Thank you

Sincerely,

Thomas Westbrook, PE
Project Manager

Dirk Graham
