Hi Matthew, I hope you had a nice weekend.

This application highlights two of the purposes of the Fan District Association, namely promoting better education within the Fan District and preserving and protecting its architectural character.

We certainly understand the immediate need for additional classroom space at the Fox school and therefore do not oppose the application. However, in keeping with our purpose of preserving the architectural character of the Fan, we hope that these modular units will indeed be temporary, as the application represents, while a permanent expansion – one that is architecturally compatible with the wonderful design of the school and the neighborhood – is constructed.

Thank you for bringing this to our attention.

Tim Feehan, President, Fan District Association
