Mark Olinger, Director Department of Planning & Development Review 900 East Broad Street, Suite 511 Richmond, VA 23219 mark.olinger@richmondgov.com

Re: 2413 Ownby Lane Rezoning Applicant's Report from M-2 to B-5

Dear Mr. Olinger,

On behalf of the developers of 2413 Ownby Lane, please accept this letter as the Applicant's Report for the rezoning from M-2 Heavy Industrial to B-5 Central Business District. With this application, Spy Rock Real Estate Group is petitioning City Council to rezone the property from the existing outdated industrial district to the Central Business District zoning intended to promote storefront characters along principal street frontages, a sense of compatibility with adjacent residential neighborhoods, and a safe, convenient and economically viable pedestrian environment. This application is related to the similar rezoning application RZON-061488-2019 for 1601 & 1611 Overbrook Road submitted on September 25, 2019.

Site

The proposed rezoning is for parcel N0001294040 located on the southeast corner of the Overbrook Road and Ownby Lane intersection. These are both collector streets to the minor arterial Hermitage Road. The property is located in the Hermitage Business Park subdivision of The Diamond neighborhood in the Near West Planning District. The site is one block west of the of the residential portion of Overbrook Road in the Virginia Union neighborhood. A 10-foot-wide sidewalk separates the parcel from the road.

The parcel is approximately 1.15 acres of land area and is currently improved with a one-story 13.5' tall building fronting on Ownby Lane with two minor detached accessory buildings. It surrounded by asphalt parking and unimproved surface. The building serves as a small office and per the City Assessor's Office was built in 1996. It is owner occupied by Boxwood Partners, an investment firm, and they are happy to relocate elsewhere. A survey of the parcel is enclosed.

Existing Zoning Regulations

The property is located in M-2 Heavy Industrial District, which permits a wide variety of commercial, industrial and service uses, many of which could be considered noxious or undesirable so close to the mix of uses now found in the area and so proximate to residential uses on the opposing side of Overbrook Road.

M-2 allows for a base building height of forty-five feet with additional height based on an incline plane from the centerline of the abutting street. No portion of a building can penetrate the inclination of one foot horizontal for each three feet vertical. This would allow a building height up to approximately 90 feet along the principal street frontage of Overbrook, a 60-foot-wide right of way. Setbacks are only required on the side and rear lot lines.

Proposal

The owner wishes to construct a new mixed-use development on the property that would comply with the B-5 Central Business District zoning regulations. It permits a wide variety of retail shops and businesses as principal uses which would promote a more pedestrian atmosphere. Dwelling units, including single-family, are also allowed.

B-5 allows for a base building height of no more than 5 stories, no greater than 15 feet with the ground floor as an exception, and a minimum of 2 stories. This would allow for a building up to at least 75 feet.

In addition, to the normal zoning requirements, any development of the site as a mixed-use residential project with more than 10 units or greater than 50,000 square feet will require a plan of development to be approved by the Director of Planning and Development Review to ensure compatibility with the district and the city's plans.

It should be noted that B-5 is more suitable than the B-7 district. B-7 should not be considered as it permits uses allowed in M-1 and M-2 district which are deemed undesirable so close to residential uses on the opposing side of the street and in the area. Also, B-7 does not allow single-family detached, single-family attached or two-family dwellings. The applicant would like to incorporate a variety of housing types and styles at different price points and market these to different demographics. B-7 only permits what would be large monolithic multi-family buildings.

Master Plan / Pulse Corridor Plan

The City of Richmond's Master Plan, adopted in 2001, designates the subject properties for "industrial" development. However, for the Near West Planning District, the plan states that "it is meant to accommodate new and diverse development opportunities where appropriate,"

and "recommends the ultimate conversion or phasing out of several isolated pockets of uses that are inconsistent with surrounding uses." (pages 229-230).

The current singular use of the parcel is becoming increasingly incompatible with the area and in particular due to the conversion of the majority of the properties in surrounding properties to mixed use and multi-family residential uses. Ord. No. 2018-326 authorized nearby 1650 Overbrook Road for the use of up to 205 dwelling units.

The subject properties are a few blocks outside of the walkshed for the Pulse Corridor Plan. Within this plan the stated goals for development along the transit line is for it to be Compact & Mixed, Connected, and Thriving & Equitable. The rezoning of this property would allow for development that would support these objectives. The current use acts only as a singular structure and surrounded by parking surfaces without any visual interest at the human scale. It does not support the safety concept of "eyes on the street" or a pedestrian atmosphere as it stands or could be developed presently.

City Charter Conditions

We trust that you will agree that the development of the site would be better suited under the regulations in the B-5 Central Business District and that the rezoning meets the City Charter considerations to be observed in the alteration of zoning regulations.

Thank you for your consideration of this rezoning. Please feel free to contact me at lory@markhamplanning.com or (804) 248-2561 if you have any questions or require additional materials to process the application.

Very Truly Yours,

Lory Markham
