Hi David,

Thanks for bringing this to my attention. I know we discussed some version of this SUP last year at one of our board meetings. The general consensus was it is acceptable to our board members. Seeing as the poles supporting the sign still exist, the fact that an entirely new sign is not being constructed, and its proximity to the highway, we take no position on this request and have no opposition.

Please let me know if you have further questions.

Thanks,  
Trevor Dickerson
