

Mr. Brown,

Please accept this letter of support from the Forest Hill Neighborhood Association (FHNA) for the Special Use Permit on the proposed development at 1005 Westover Hill Boulevard. At the general meeting of the FHNA membership on February 16, 2021 a vote was held resulting in the support of the proposed development by Zach Kennedy. Mr. Kennedy has attended and presented at over half a dozen meetings of the FHNA over the past year. He has been receptive to the feedback provided by the neighborhood. He has done more than most developers I have encountered in making sure that he had buy in from the neighbors of the proposed development and surrounding area. I trust that he will put the same level of effort into the continued development of the currently empty lot at 1005 Westover Hills Blvd.

Regards,
Whit Clements
President
Forest Hill Neighborhood Association
