Other comments: We believe the waiver for street parking will create congestion problems on the 24ft wide two way street Carrington and that this is a safety hazard for the residents of the street. If Carrington were a one way street these hazards could be avoided; however, since the street is not one way, we are unable to support this development. We appreciate the openness of the builder through this process and hope that traffic engineering (DPU) will respond to this concern of the street that we have been voicing for several years. If they can make a structural change to the street, this building would receive community support in the future.
