RE: To authorize the special use of the property known as 918 North 35th Street for the purpose of two single-family detached dwellings, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 918 North 35th Street for the purpose of two single-family detached dwellings, upon certain terms and conditions.

REASON: The applicant is requesting split the existing lot, which contains one single-family detached dwelling, and construct a new single-family detached dwelling on the new lot. The two proposed lots do not meet the lot area and lot width requirements of the R-5 Single-Family Residential District. Additionally, the proposed dwellings do not meet the side yard (setback) requirement from the proposed property line. A special use permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its December 6, 2021 meeting.

BACKGROUND: The subject property consists a parcel containing a lot area of 7,516 square feet (0.173 acres) and is currently improved with one two-story single-family detached dwelling that has a floor area of approximately 1,900 square feet. The property is located in the Chimborazo neighborhood at the southwest corner of North 35th Street and P Street.

The subject property is located within the R-5 Single-Family Residential District. While the proposed single-family dwellings are uses permitted in the R-5 District, the lot area and lot widths for the proposed lots do not meet the minimum requirements of 6,000 square feet and 50 feet, respectively, for the R-5 District. Additionally, the proposed side yard (setback) from the each dwelling to the new interior lot line do not meet the minimum requirement of five feet (5') for the R-5 District.

Richmond 300 recommends a future land use of “Neighborhood Mixed-Use” for the property. The primary uses recommended for Neighborhood Mixed-Use are single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units) and open space. Secondary uses include large multi-family buildings (10+ units), retail/office/personal service, institutional, cultural and government. The intensity recommended for Neighborhood mixed-use is typically two to four stories, with more height permissible along major streets. The development style should be compatible with the existing context. Setbacks, plazas and parks can help create a sense of place and community gathering areas. New developments on larger parcels should continue or introduce a gridded street pattern. In historic neighborhoods, small-scale commercial buildings should be introduced. Ground floors should engage the street with features such as street-oriented facades. Appropriate setbacks, open space, front porches, elevated ground floors and other features that provide a sense of privacy should be provided for residential uses. Pedestrian, bicycle, and transit access must

be accommodated, and bike parking must be provided.

The property is also in a location identified as a “micro node” on the Richmond 300 Nodes Map, which is a notable place in a neighborhood that provides goods and services primarily to the immediate residents but also may attract visitors.

The predominant land use in the vicinity is single-family dwellings, however the Oakwood Arts Center is located directly to the east, across N 35th Street, and a church is located one half block to the west.
