To express the City’s support for achieving equity and justice in access to resources and opportunities through the implementation of the City of Richmond’s Equity Agenda.

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF RICHMOND:

That the Council hereby expresses its support for achieving equity and justice in access to resources and opportunities through the implementation of an equity agenda as set forth in the document entitled “The City of Richmond’s Equity Agenda,” a copy of which is attached to this resolution, and legislative action consistent with and in vigorous support of such equity agenda, and hereby encourages other organizations and individuals to support these proposals.

THE CITY OF RICHMOND’S EQUITY AGENDA

WHEREAS, the City of Richmond (further referred to as “City”) recognizes that 2020 was a year of reckoning for our communities, families, cities, and nation; and,

WHEREAS, the COVID-19 pandemic has devastated our local economy and families, highlighting decades of

inequities in health care, housing, education, and access to other resources; and,

WHEREAS, the City recognizes that even though much work has been done to make our city more equitable and inclusive, there is still much work to be accomplished; and,

WHEREAS, the City acknowledges and apologizes for harms it caused in years past, such as redlining, annexation, and erecting monuments to the Lost Cause, that divided our community and broke trust; and,

WHEREAS, the City wants to engage and join in dialogue with Richmond residents to begin the healing process to ensure a more united community; and,

WHEREAS, on May 7, 2020, the Mayor proclaimed that the city of Richmond is a “City of Compassion” in affirmation of the mission of the Charter for Compassion organization and, in accordance with this proclamation, the City will continue efforts to move the city of Richmond forward using innovation and a lens of compassion; and,

WHEREAS, the City recognizes that racial inequity is the result of structural racism that is embedded in our historical, political, cultural, social, and economic systems and institutions; and,

WHEREAS, City residents who live at the intersections of multiple marginalized identities in addition to race, such as gender identity, disability, economic status, sexual orientation, or age, face compounding barriers to their ability to thrive and be well; and,

WHEREAS, the City’s definition of “equity” is to “empower people and communities that have experienced past injustices by removing barriers to access and opportunity;” and,

WHEREAS, the City recognizes its duty is to remove barriers (including educational, economic, and physical barriers, such as roads and access to affordable housing) to ensure greater access to resources and opportunities; and,

WHEREAS, the City understands and appreciates that advancing racial equity not only improves the lives of those who have faced injustice, but also leads to a higher quality of life for people of all backgrounds; and,

WHEREAS, research shows that every region of the country would be financially stronger with racial inclusion. Specifically, the American economy would gain approximately \$2.3 trillion in gross domestic product every year by closing its racial equity gaps in income; and,

WHEREAS, the City recognizes that there is an economic and moral cost to racial inequities. Racial equity would have a positive effect in Richmond - for families who are struggling to make ends meet, for the businesses that depend on them as customers, and for places that rely on their well-being; and,

WHEREAS, the City has an opportunity to meet its moment by addressing historic injustices and inequities by working with community and trusted health experts to ensure access to the COVID-19 vaccine, which is one of the keys to economic recovery; and,

WHEREAS, the most recent budget forecast anticipates that the City will experience a deficit in Fiscal Year 2021 and in Fiscal Year 2022; and,

WHEREAS, to meet additional needs, the City strongly advocates for additional flexible direct aid from the federal and state government to assist with vaccine distribution and to support the needs of our community; and,

WHEREAS, despite budgetary constraints, the City will continue to promote its “Equity Agenda” and find

innovative solutions to solve problems, listening to and working alongside Richmond residents.
