RE: To authorize the special use of the property known as 2515 Rear Hanover Avenue for the purpose of a single-family detached dwelling, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 2515 Rear Hanover Avenue for the purpose of a single-family detached dwelling, upon certain terms and conditions.

REASON: The applicant is requesting a Special Use Permit which would allow for the adaptive re-use of an existing garage into a single-family dwelling within an R-6 Single-Family Attached Residential District. The proposed use is not currently allowed by section 30-610.1 of the Code of the City of Richmond 2020, regarding public street frontage, a Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its January 4, 2020, meeting.

BACKGROUND: The property is located in the Fan neighborhood of the Near West Planning District on an internal alleyway between Robinson and Davis Streets. The property is currently improved with a 1,200 sq. ft. detached garage. The application is to adapt the garage into a two-bedroom, single-family detached dwelling.

The City of Richmond's current Master Plan designates a future land use category for the subject property as Single Family Residential at Medium densities. Primary uses for this category "...are single family and two family dwellings, both detached and attached, at densities of 8 to 20 units per acre. Includes residential support uses such as schools, places of worship, neighborhood parks and recreation facilities, and limited public and semi-public uses. Typical zoning classifications that may accommodate this land use category: R-5A, R-6 and R-7. (City of Richmond Master Plan, 133)

The final version of the Richmond 300 Master Plan designates a future land use for the subject property as Destination Mixed-Use. This category is viewed to include higher density, transit-oriented development encouraged on vacant or underutilized sites. New development should be urban in form, may be of larger scale than existing context, and, where relevant, should pay special attention to the historic character of the existing context. Development should enhance the public realm and create a sense of place. Many buildings are vertically mixed use. Developments continue or introduce a gridded street pattern to increase connectivity. In terms of mobility, this land use includes pedestrian, bicycle, and transit access are prioritized and accommodated. Bike parking is provided. Driveway entrances are required to be of alleys whenever possible; new driveways are prohibited on priority and principal street frontages. Surface parking is prohibited as a principal use; when surface parking is provided as an accessory use, it should be located to the rear of buildings and screened. Parking requirements are reduced to allow more market-based parking strategies, including shared parking. Primary Uses include: Retail, office, personal service, multi-family residential, cultural, and

open space. Secondary Uses include Institutional and government.

The current zoning for this property is R-6 (Single Family Attached Residential). All adjacent properties are located within the same R-6 Residential Zone. A mix of residential densities, with several commercial uses on nearby Robinson Street, are present in the area.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.
