**RE:** To authorize the special use of the property known as 2910 Q Street for the purpose of a mixed-use building with outdoor dining, upon certain terms and conditions.

**ORD. OR RES. No.**

**PURPOSE:** To authorize the special use of the property known as 2910 Q Street for the purpose of a mixed-use building with outdoor dining, upon certain terms and conditions.

**REASON:** The applicant is requesting a special use permit to reduce the parking requirement in order to allow for flexibility in commercial tenants in addition to allowing for a future restaurant tenant to have outdoor dining without being subject to the distance requirement from R-zoned property, as established in Sec. 30.436.1(33) of the zoning ordinance. There is sufficient parking on-site and on-street to meet the zoning ordinance requirements for an office, personal service, or retail use; there is not sufficient parking, however, to meet the zoning ordinance requirements for a restaurant or convenience store use.

**RECOMMENDATION:** In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its June 21, 2021, meeting.

**BACKGROUND:** The subject property contains a lot area of approximately 9,600 square feet and is improved with a three-story mixed-use building containing thirteen (13) dwelling units and 1,179 SF of commercial space that was completed in 2020. To allow for more flexibility, the application proposes to waive parking requirements associated within potential commercial uses and to also waive the distance requirement from R-zoned property related to outdoor dining for a restaurant use. The property is located

The Richmond 300 Master Plan recommends a future land use of “Neighborhood Mixed-Use” for the property. The primary uses recommended for Neighborhood Mixed-Use are single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units) and open space. Secondary uses include large multi-family buildings (10+ units), retail/office/personal service, institutional, cultural and government. The intensity recommended for Neighborhood mixed-use is typically two to four stories, which more height permissible along major streets. The development style should be compatible with the existing context. Setbacks, plazas and parks can help create a sense of place and community gathering areas. New developments on larger parcels should continue or introduce a gridded street pattern. In historic neighborhoods, small-scale commercial buildings should be introduced. Ground floors should engage the street with features such as street-oriented facades. Appropriate setbacks, open space, front porches, elevated ground floors and other features that provide a sense of privacy should be provided for residential uses. Pedestrian, bicycle, and transit access must be accommodated, and bike parking must be provided.

The property is located within the B-2 Community Business District. Properties to the south and west are also

located within the B-2 Community Business District. Properties to the north and east are located within the R-6 Single-Family Attached Residential District. The property to the north contains a single-family dwelling. Properties to the east and south contain vacant commercial buildings. An office building is located directly to the west and the Robinson Theater is located to the southwest.
