RE: To authorize the special use of the properties known at 3114 Groveland Avenue and 3119 Veranda Avenue for the purposes of three single-family detached dwellings, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the properties known at 3114 Groveland Avenue and 3119 Veranda Avenue for the purposes of three single-family detached dwellings, upon certain terms and conditions.

REASON: The applicant is proposing to split the lot with an address of 3114 Groveland Avenue and construct single family detached dwellings on each of the three resulting lots. The proposed new lots do not meet the lot area requirement of the R-5 Single-Family Residential District, and the proposed improvements do not meet the yard, lot coverage and parking requirements of the R-5 Single-Family Residential District. A special use permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its July 6, 2021, meeting.

BACKGROUND: The subject properties consists of a total of 6,180 square feet, or .14 acre, and are currently unimproved. The properties are a part of the Highland Terrace neighborhood in the City's North Planning District. The owner wishes to split the existing lot with an address of 3114 Groveland Avenue and construct single family detached dwellings on each of the three resulting lots.

The Richmond 300 master plan recommends a future land use of "Residential" for the property. The primary uses recommended for Residential are single-family houses, accessory dwelling units, and open space.

Secondary uses include duplexes and small multi-family buildings, institutional and cultural (typically found along major streets). The development style is houses on medium-sized and large-sized lots. Future development should continue or introduce a gridded street pattern to increase connectivity. Future single-family housing should be built to a scale that is consistent with existing buildings. The recommended intensity is typically 1-3 stories, with lot sizes generally ranging up to 5,000 SF up to 20,000 SF, with density generally 2-10 housing units per acre.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
