O & R Request

DATE: May 14, 2021

(This in no way reflects a recommendation on behalf of the Mayor)

RE: To authorize the special use of the property known as 5005 Riverside Drive for the purpose of one short-term rental unit within an accessory structure.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 5005 Riverside Drive for the purpose of one short-term rental unit within an accessory structure, upon certain terms and conditions.

REASON: The applicant is requesting a special use permit to allow for the use of an accessory structure (the “treehouse”) on the property. The short-term rental regulations are applicable to dwelling units, not to accessory structures. A special use permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its July 6, 2021, meeting.

BACKGROUND: The subject property consists of 199,054 square feet (4.57 acres) that is improved with a single-family dwelling and is mostly wooded. The property is located in the Westover Hills neighborhood.

The subject property is located within the R-3 Single-Family Residential District. The proposed short term rental unit is not permitted within the accessory structure according to the short term rental regulations contained in Section 697.1 of the Zoning Ordinance.

The Richmond 300 Master Plan recommends a future land use of “Residential” for the property. The primary uses recommended for Residential are single-family homes, accessory dwelling units and open space. Secondary uses include duplexes and small multi-family buildings (3-10 units), institutional and cultural uses. These uses should typically be located on major streets. The development style for Residential is houses on medium or large sized lots with homes setback from the street. Future development should continue or introduce a gridded pattern of development and new buildings should be built to a scale and design that is consistent with existing buildings. Buildings are generally one to three stories, with lots generally ranging up to 5,000 SF to 20,000 SF. General density should be 2-10 units per acre.

Single-family dwellings are located to the west, south and east of the property. The James River Park System and Norfolk Southern railroad is located to the north of the property, and an access easement for James River Park trail system runs across the northernmost portion of the property.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
