RE: To authorize the special use of the properties known as 1031 Fourquarean Lane, 1031 Rear
Fourquarean Lane, and 1101 Fourquarean Lane for the purpose of a multifamily development
containing up to 56 dwelling units with off-street parking, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the properties known as 1031 Fourquarean Lane, 1031 Rear
Fourquarean Lane, and 1101 Fourquarean Lane for the purpose of a multifamily development containing up to 56
dwelling units with off-street parking, upon certain terms and conditions.

REASON: The applicant is proposing to construct fifty-six (56) multi-family dwelling units within fourteen
(14) individual apartment buildings, a central leasing office/community building, and outdoor recreational
space on three contiguous properties located within the R-53 Multi-Family Residential and R-5 Single Family

Residential Zoning Districts. The proposal is not a permitted use within the R-5 District. A Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its March 1, 2021 meeting.

BACKGROUND: The subject properties consist of three vacant parcels that, collectively, total approximately 3.6 acres. The property is a part of the Green Park neighborhood on Fourcrean Lane, between Harold and Second Avenues.

The City's Richmond 300 Master Plan designates a future land use for this property as Residential. Residential land uses are neighborhoods "...consisting primarily of single-family houses on large- or medium-sized lots more homogeneous in nature." The recommended development style for this use is housing "...on medium-sized and large-sized lots in a largely auto-dependent environment. Homes are setback from the street. Future developments continue and/or introduce a gridded street pattern to increase connectivity. Future single-family housing, accessory dwelling units, duplexes, and small multi-family residential buildings are built to a scale and design that is consistent with existing buildings. Bicycle and pedestrian access are prioritized and accommodated. Low residential density means that it is not possible to provide frequent transit within these areas; however, frequent transit may be found at the edges of these areas within more intense future land use designations. Many homes have driveways and/or garages, which are located off an alley behind the home if an alley is present. Buildings are generally one to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing units per acre. Primary uses include single-family houses, accessory dwelling units, and open space. Secondary uses include duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural." (p. 54) The density of the project is proposed to be approximately 16 units per acre.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
