(This in no way reflects a recommendation on behalf of the Mayor)

THROUGH: J.E. Lincoln Saunders, Acting Chief Administrative Officer

RE: To authorize the special use of the property known as 3017 Forest Hill Avenue for the purpose of a day nursery with up to twelve children not residing in the household between the ages of six weeks and twelve years old.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 3017 Forest Hill Avenue for the purpose of a day nursery with up to twelve children not residing in the household between the ages of six weeks and twelve years old.

REASON: The applicant is requesting a special use permit to allow for the use of the family room in the dwelling for the purpose of a day nursery with up to twelve children not residing in the household. Day nurseries are not permitted in the R-5 Single-Family Residential District. Day nurseries are defined in the zoning ordinance as a “facility for the care of more than five children while separated from their parents for a portion of the day, not including children of a family residing on the premises.” A special use permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its May 17, 2021, meeting.

BACKGROUND: The subject property contains a lot area of 7,500 square feet (0.172 acres) and is improved with a single-family detached dwelling. The property is located in the Woodland Heights neighborhood on Forest Hill Avenue, between W. 30th Street and W. 31st Street.

The Richmond 300 Master Plan recommends a future land use of “Residential” for the property. The primary uses envisioned for Residential are single-family houses, accessory dwelling units, and open space. Secondary uses are duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural. The development style is medium-sized and large-sized lots in a largely auto-dependent environment. Homes are setback from the street. Future developments continue and/or introduce a gridded street pattern to increase connectivity. Future single-family housing, accessory dwelling units, duplexes and small multi-family residential buildings are built to a scale and design that is consistent with existing buildings. Buildings are generally one to three stories, with lot sizes ranging up to 5,000 square feet to 20,000 square feet. Residential density is typically two to ten housing units per acre.

Properties to the east, west, north and south are all also located in the R-5 Single-Family Residential District. The property is located within a residential neighborhood and is surrounded by other single-family dwellings.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
