RE: To authorize the special use of the property known as 1919 Wilmington Avenue for the purpose
of a dwelling unit within an accessory building, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1919 Wilmington Avenue for the purpose of
a dwelling unit within an accessory building, upon certain terms and conditions.

REASON: The applicant is requesting a Special Use Permit which would allow for a dwelling unit accessory to
a single-family dwelling within an R-5 Single-Family Residential District. The proposed use is not currently
allowed by section 30-410.1 of the Code of the City of Richmond 2020, regarding permitted principal uses, a
Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance,
the City Planning Commission will review this request and make a recommendation to City Council. This item
will be scheduled for consideration by the Commission at its March 1, 2021, meeting.

BACKGROUND: The property is located in the Rosedale neighborhood on Wilmington Avenue between
Rosedale and Lanvale Avenues. The property is currently improved with a 1,673 sq. ft. single family detached
dwelling situated on a 7,804 sq. ft. (.18 acre) parcel of land. The application is construct an accessory building
to be used as a two-bedroom dwelling unit.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Residential. This
category is viewed to include "...single-family houses on large- or medium-sized lots more homogeneous in
nature. The future development style includes houses "...on medium-sized and large-sized lots in a largely auto
-dependent environment. Homes are setback from the street. Future developments continue and/or introduce a
gridded street pattern to increase connectivity. Future single-family housing, accessory dwelling units,
duplexes, and small multi-family residential buildings are built to a scale and design that is consistent with
existing buildings." Bicycle and pedestrian access are prioritized and accommodated. Low residential density
means that it is not possible to provide frequent transit within these areas; however, frequent transit may be
found at the edges of these areas within more intense future land use designations. Many homes have driveways
and/or garages, which are located of an alley behind the home if an alley is present. Buildings are generally one
to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing
units per acre. Primary Uses include: Single-family houses, accessory dwelling units, and open space.
Secondary Uses include: Duplexes and small multi-family buildings (typically 3-10 units), institutional, and
cultural. Secondary uses may be found along major streets. (p. 54) The density of the proposed development is

approximately 11 units per acre.

The current zoning for this property is R-5 (Single Family Residential). All adjacent properties are located within the same R-5 Residential Zone.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.
