RE: To authorize the special use of the property known as 1402 Roseneath Road for the purpose of an automated teller machine accessible from the exterior of a building, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1402 Roseneath Road for the purpose of an automated teller machine accessible from the exterior of a building, upon certain terms and conditions.

REASON: The applicant is requesting a Special Use Permit for the purpose of an exterior automated teller machine and kiosk within a Transit Oriented Nodal District Zoning District. The proposed use is not currently allowed by section 30-457.2, regarding the placement of automated teller machines. Automated Teller Machines are required to be placed on the interior of buildings. A Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its May 17, 2021, meeting.

BACKGROUND: The property is currently improved with a 345 unit, mixed-use building, constructed in 2019, situated on a 110,610 sq. ft. (2.5 acre) parcel of land. The property is located in the Scott's Addition neighborhood on Roseneath Road, between West Clay and West Leigh Streets.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Destination Mixed-Use which is defined as "key gateways featuring prominent destinations, such as retail, sports venues, and large employers, as well as housing and open space. Located at the convergence of several modes of transportation, including Pulse BRT or other planned transit improvements."

Development within this category is "Higher density, transit-oriented development encouraged on vacant or underutilized sites. New development should be urban in form, may be of larger scale than existing context, and, where relevant, should pay special attention to the historic character of the existing context. Development should enhance the public realm and create a sense of place. Many buildings are vertically mixed-use. Developments continue or introduce a gridded street pattern to increase connectivity. Ground floor uses engage with, and enliven, the street. Monolithic walls are discouraged, while windows, doors, storefronts, and other features that allow transparency and interaction between building and street are encouraged. Active commercial ground floor uses are required on street-oriented commercial frontages. Pedestrian, bicycle, and transit access are prioritized and accommodated. Bike parking is provided. Driveway entrances are required to be of alleys whenever possible; new driveways are prohibited on priority and principal street frontages. Surface parking is prohibited as a principal use; when surface parking is provided as an accessory use, it should be located to the rear of buildings and screened. Parking requirements are reduced to allow more market-based parking strategies, including shared parking. Buildings typically a minimum height of five stories. (p. 64)

The property is also located within the vicinity of the Scott's Addition Neighborhood Node.

The current zoning for this property is TOD-1 Transit Oriented Nodal District Zoning District. Properties to the North and West are located within the B-7 Mixed-Use Business Zoning District. Properties to the South and East are located within the TOD-1 District.
