(This is no way reflects a recommendation on behalf of the Mayor.)

RE: To authorize the special use of the properties known as 3700 Monument Avenue and 1301A North Hamilton Street for the purpose of a multi-family building containing up to 263 units, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the properties known as 3700 Monument Avenue and 1301A North Hamilton Street for the purpose of a multi-family building containing up to 263 units, upon certain terms and conditions.

REASON: The applicant is requesting a Special Use Permit for the purpose of multi-family use within an R-73 Multi-Family Residential Zoning District. Such a use is a permitted use in this district, however, the proposed building would not meet certain feature requirements, including setbacks and floor area ratio. A Special Use Permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its June 7, 2021, meeting.

BACKGROUND: 1301A North Hamilton Street is currently improved with a 26,448 sq. ft. commercial building, constructed in 1981, situated on a 54,886 sq. ft. (1.26 acre) parcel of land. 3700 Monument Avenue is currently a surface parking lot situated on a 46,778 sq. ft. (1.2 acre) parcel of land. Both properties are located in the Sauer's Gardens neighborhood, bound by I-195, Monument Avenue, and North Hamilton Street.

The City's Richmond 300 Master Plan designates a future land use for the subject property as Corridor Mixed-Use which are uses "found along major commercial corridors and envisioned to provide for medium- to medium high-density pedestrian- and transit-oriented development."

Building sizes, "...density, and zoning districts for these areas may vary significantly depending on historical densities and neighborhood characteristics. Future development should generally complement existing context. Uses may be mixed horizontally in several buildings on a block or vertically within the same building. Developments continue introduce a gridded street pattern to increase connectivity." Ground floor uses engage with, and enliven, the street. Monolithic walls are discouraged, while windows, doors, storefronts, and other features that allow transparency and interaction between building and street are encouraged. Active commercial ground floor uses are required on street-oriented commercial frontages. Pedestrian, bicycle, and transit access are prioritized and accommodated. Bike parking is provided. Driveway entrances are required to be of alleys whenever possible; new driveways are prohibited on priority and principal streets. Parking areas are located within the structure and to the rear of buildings and require screening; shared parking requirements are

encouraged. Buildings generally ranging from two to ten stories, based on street widths and depending on the historic context and stepping down in height adjacent to residential areas. New buildings that are taller than historical buildings should step back from the build-to line after matching the height of the predominant cornice line of the block.

Primary Uses: Retail/office/personal service, multi-family residential, cultural, and open space.

Secondary Uses: Single-family houses, institutional, and government.

The density of the proposed development is approximately 105 units per acre.

The current zoning for this property is R-73 Multi-Family Residential Zoning District. Adjacent properties are located within the R-53 Multi-Family and RO-2 Residential Office Districts.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
