RE: To authorize the special use of the property known as 901 Lake Road for the purpose of allowing a two-family detached dwelling, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 901 Lake Road for the purpose of allowing a two-family detached dwelling, upon certain terms and conditions.

REASON: The subject property is located in the R-5 Single-Family Residential zoning district. Two-family dwellings are not permitted uses in this zoning district. Therefore a special use permit amendment is required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its October 4, 2021 meeting.

BACKGROUND: The 6,056 square foot subject property is located on the corner of Lake Road and Walker Street. It is improved with a 2,252 square foot home and is located in the Byrd Park neighborhood and is within the boundary of the Byrd Park Civic League.

On April 15, 1946 the City of Richmond Board of Zoning Appeal granted a variance authorizing the construction of a two-family dwelling on the property. On October 14, 2002 the property was rezoned from the R-6 Single-Family Attached Residential District to the R-5 Single-Family Residential District. Under the new zoning designation the two-family dwelling became a legally nonconforming use. A nonconforming structure *shall not be enlarged, extended, reconstructed, moved or structurally altered unless such building or structure is thereafter devoted to a conforming use*. The property owner proposes to add porches to the structure as part of an extensive renovation. This proposal is an expansion of the nonconforming use that exceeds the 10% threshold for an expansion that can be granted by the Board of Zoning Appeals under a Special Exception. A special use permit authorizing a two-family dwelling for the property will remedy the nonconforming status of the structure and allow the proposed expansion to occur.

The Richmond 300 Master Plan recommends Residential Uses for the Property. The development style in this designation calls for houses on medium-sized and large-sized lots in a largely auto-dependent environment. Homes are setback from the street. Future developments continue and/or introduce a gridded street pattern to increase connectivity. Future single-family housing, accessory dwelling units, duplexes, and small multi-family residential buildings are built to a scale and design that is consistent with existing buildings.

Intensity: Buildings are generally one to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft. Residential density of 2 to 10 housing units per acre.

Primary Uses: Single-family houses, accessory dwelling units, and open space.

Secondary Uses: Duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural.

The addition to the existing two-story structure will be a traditional urban design that is complementary to the surrounding dwellings on the block and in the neighborhood. The net density of the two-family structure is

approximately 14 units per acre.

All properties surrounding the subject property are located within the same R-5 Single-Family Residential zoning district. Within the area of the subject property, properties are improved with single-family and two-family dwellings. There are also five structures built as duplexes and still retain this use.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
