RE: To authorize the special use of the property known as 1807 Harwood Street for the purpose of allowing three two-family detached dwellings, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1807 Harwood Street for the purpose of allowing three two-family detached dwellings, upon certain terms and conditions.

REASON: The subject property is located in the R-5 Single-Family Residential zoning district. Two-family detached dwellings are not permitted uses in this zoning district. In addition, the proposed new parcels do not meet all lot feature requirements of the zoning district. Therefore a special use permit amendment is required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its December 6, 2021 meeting.

BACKGROUND: The 18,960 square foot subject property is located near the corner of Harwood Street and East 18th Street. It is improved with a 2,082 square foot two-family home. It is located in the Oak Grove neighborhood and is within the boundary of the Oak Grove Civic Association.

The applicant proposed to subdivide the property into three parcels that are each 40 feet wide and contain 6,319 square feet. The existing two-family structure shall remain and two new two-family dwelling shall be built on the newly created parcels located to the east and west. As proposed, the new structures shall be built in compliance with the Americans with Disabilities Act (ADA) standards.

The Richmond 300 Master Plan recommends Residential Uses for the Property. The development style in this designation calls for houses on medium-sized and large-sized lots in a largely auto-dependent environment. Homes are setback from the street. Future developments continue and/or introduce a gridded street pattern to increase connectivity. Future single-family housing, accessory dwelling units, duplexes, and small multi-family residential buildings are built to a scale and design that is consistent with existing buildings.

Intensity: Buildings are generally one to three stories. Lot sizes generally range up to 5,000 to 20,000+ sq. ft.

Residential density of 2 to 10 housing units per acre.

Primary Uses: Single-family houses, accessory dwelling units, and open space.

Secondary Uses: Duplexes and small multi-family buildings (typically 3-10 units), institutional, and cultural.

The existing two-story structure will be renovated retaining its current design. The new structures are complementary to the surrounding dwellings on the block and in the neighborhood. Several homes on the street have retrofitted accessibility ramps providing front door access. The proposed new structures shall be built at grade and will not require access ramps. The net density of the two-family attached structure is approximately 7 units per acre.

All properties surrounding the subject property are located within the same R-5 Single-Family Residential zoning district. Within the area of the subject property, properties are improved with single-family and two-family attached dwellings. There are also five structures built as duplexes and still retain this use.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
