**THROUGH:** The Honorable Levar M. Stoney, Mayor (Patron: Mayor, by Request)  
(This in no way reflects a recommendation on behalf of the Mayor)

**RE:** To authorize the special use of the property known as 2317 Rosewood Avenue for the purpose of an elevated deck and fence with screening panels accessory to a single-family dwelling that do not meet applicable yard requirements, upon certain terms and conditions

**ORD. OR RES. No.**

**PURPOSE:** To authorize the special use of the property known as 2317 Rosewood Avenue for the purpose of an elevated deck and fence with screening panels accessory to a single-family dwelling that do not meet applicable yard requirements, upon certain terms and conditions.

**REASON:** The applicant has constructed an elevated deck and fence, with portions containing screening walls. Any structure 3' or more above grade and any fence more than 6.5' above grade is required to meet yard (setback) requirements. The elevated deck and the portions of the fence and screening walls that exceed 6.5' in height are constructed to and on the property line where there is a side yard (setback) requirement of 3'. A special use permit is therefore required.

**RECOMMENDATION:** In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its November 1, 2021, meeting.

**BACKGROUND:** The subject property contains a lot area of approximately 2,685 square feet (0.06 acre) and is improved with a single-family detached dwelling. The owner constructed an attached deck that is four feet above grade to keep the same elevation of the home, and enclosed the rear yard and patio with a fence. In order to provide privacy for the elevated deck, the portions of the fence adjacent to the deck were constructed at a height of 8.5' with additional 1.5' tall screening panels. The deck and fence are aligned with the existing house, which has a nonconforming ("grandfathered") side yard. The special use permit is necessary to provide relief from the side yard (setback) requirement since any structure 3' or more above grade and any fence more than 6.5' above grade must meet the current side yard (setback) requirements. Board of Zoning Appeals approval is not an option since the deck was constructed without a permit.

The Richmond 300 master plan recommends a future land use of "Neighborhood Mixed Use" for the property. The primary uses recommended for Neighborhood Mixed Use are single family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units) and open space. Secondary uses include large multi-family buildings (10+ units), retail/office/personal service, institutional, cultural and government. The intensity recommended for Neighborhood mixed use is typically two to four stories, which more height permissible along major streets. The development style should be compatible with the existing context. Setbacks, plazas and parks can help create a sense of place and community gathering areas. New developments on larger parcels should continue or introduce a gridded street pattern. In historic neighborhoods, small scale commercial buildings should be introduced. Ground floors should engage the street with features such as street oriented facades. Appropriate setbacks, open space, front porches, elevated ground floors and other features that provide a sense of privacy should be provided for residential uses.

The property and all surrounding properties are located within the R-6 Single-Family Residential District. The property is within a residential neighborhood, and mostly single-family detached dwelling are located within

the block.
