RE: To authorize the special use of the property known as 1801 Carlisle Avenue for the purpose of two two-family detached dwellings, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1801 Carlisle Avenue for the purpose of two two-family detached dwellings, upon certain terms and conditions.

REASON: The applicant is requesting a special use permit to authorize the use of the property as two two-family dwellings. Two-family dwellings are not permitted in the R-5 Single-Family Residential District. There is an existing nonconforming two-family dwelling on western portion of the lot, and the applicant is requesting to split the lot and construct a second two family dwelling on the western portion of the existing lot.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its February 7, 2022, meeting.

BACKGROUND: The subject property contains a lot area of approximately 10,108 square feet and is improved with a two story two-family detached dwelling. The R-5 District does not permit two-family dwellings. The existing two-family dwelling is legally nonconforming (“grandfathered”).

Richmond 300 recommends a future land use of “Residential” for the property. The primary uses recommended for Residential are single family homes, accessory dwelling units and open space. Secondary uses include duplexes and small multi-family buildings (3-10 units), institutional and cultural uses. These uses should typically be located on major streets. The development style for Residential is houses on medium or large sized lots with homes setback from the street. Future development should continue or introduce a gridded pattern of development and new buildings should be built to a scale and design that is consistent with existing buildings. Buildings are generally one to three stories, with lots generally ranging up to 5,000 SF to 20,000 SF. General density should be 2-10 units per acre.

The property falls within the Fulton Neighborhood Node. This area is envisioned to become a neighborhood destination with a mix of uses, including mixed-income housing. The character of the surrounding single-family neighborhoods should be preserved with programs that allow homeowners to live in high-quality homes and programs that increase homeownership opportunities. Primary next steps for the area are to rezone the Fulton Node in accordance with the Future Land Use Map and to implement high-frequency transit along Williamsburg Road to the airport with a transit stop at the intersection of Government Road and Williamsburg

Road.
