**RE:** To authorize the special use of the property known as 2000 Selden Street for the purpose of two single-family detached dwellings, upon certain terms and conditions.

**ORD. OR RES. No.**

**PURPOSE:** To authorize the special use of the property known as 2000 Selden Street for the purpose of two single-family detached dwellings, upon certain terms and conditions.

**REASON:** The applicant is proposing to construct two single-family detached dwellings with off street parking. The proposed lots would not meet lot dimension or setback requirements. A Special Use Permit is required therefore required.

**RECOMMENDATION:** In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its September 8, 2020 meeting.

**BACKGROUND:**

The subject property consists of a 6,649 SF parcel of unimproved of land. The property is located in the Eastview neighborhood in the City of Richmond's East Planning District, on Selden Street between North 20<sup>th</sup> and North 21<sup>st</sup> Streets.

The property is a part of an R-5 Single-Family Residential District. The proposal is to split the subject lot to create two lots, each with a lot area of approximately 1,090 square feet, and lot width of 32' feet for 2000 Selden Street and with a lot width of 25' feet for 2000 ½ Selden Street. The R-5 District requires a minimum lot size of 6,000 SF and a minimum lot width of 50'. Each lot will have approximate three foot side-yards which will not meet the required 5' side yard requirement. The R-5 district also requires a minimum front yard depth of at least 25'. The application calls for a depth of approximately fourteen 14'.

The City's Master Plan designates a land use category for the subject property as Single-Family Low Density. Primary uses are "...single-family detached dwellings at densities up to seven units per acre. Includes residential support uses such as schools, places of worship, neighborhood parks and recreation facilities, and limited public and semi-public uses. Typical zoning classifications that may accommodate this land use category: R-1, R-2, R-3, R-4, and R-5." (City of Richmond Master Plan). The density of the parcel if developed as proposed would be approximately 13 units per acre.

Surrounding properties are located within the same R-5 District as the subject property. A mix of single-family residential and vacant land uses are present in the vicinity, with some institutional land uses as well.
