RE: To authorize the special use of the property known as 3406 East Broad Street for the purpose of a two-family detached dwelling, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 3406 East Broad Street for the purpose of a two-family detached dwelling, upon certain terms and conditions.

REASON: The applicant is proposing to convert an existing basement into a second dwelling unit for the purpose of home occupancy or for a separate rental unit. The property is currently located in the R-8 Urban Residential District, which permits two-family attached dwellings. However, the proposed plan does not meet the requirements for lot area and width, as well as the minimum off-street parking requirement. A special use permit is therefore required.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its October 5, 2020, meeting. A letter outlining the Commission's recommendation will be forwarded to City Council following that meeting.

BACKGROUND: The subject property consists of a single family attached dwelling. The total size of the parcel is 3,209 SF, or .07 acres of improved land. The existing 2-story, building is 3,472 SF and was constructed, per tax assessment records, in 1930. The property is a part of the Church Hill neighborhood in the East Planning District. The City of Richmond's Master Plan designates a future land use category for the subject property as Single Family Medium Density. Primary uses for this category include "...single family and two family dwellings, both detached and attached, at densities of 8 to 20 units per acre. Includes residential support uses such as schools, places of worship, neighborhood parks and recreation facilities, and limited public and semi-public uses. Typical zoning classifications that may accommodate this land use category: R 5A, R-6, and R-7." (City of Richmond Master Plan). The density of the parcel if developed would be approximately 28 units per acre. Two-family attached dwellings containing two or more stories are permitted in the R 8 District, however, the proposal does not meet the lot area and width within the R-8, or parking requirements for two-family dwellings. The minimum lot area requirement for a two-family attached dwelling is 3,400 square feet. The lot area of the property is 3,209 square feet. The minimum lot width requirement for a two-family attached dwelling is 28 feet. The lot width of the property is approximately 25 feet. The off-street parking requirement for two-family dwellings within the R-8 District is a minimum of two spaces. No off-street parking is planned as a part of this application. Residential land uses dominate the area, with some commercial and institutional land uses present as well. All surrounding properties are within the same R-8 Urban Residential District as the subject property.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.
