RE: To amend and reordain Ord. No. 2010-100-83, adopted May 10, 2010, which authorized the special use of the property known as 200-214 East Leigh Street for the purpose of a multi-family residential use with up to eight (8) dwelling units in an existing carriage house building with the commercial use requirement waived and to authorize the construction of a mixed-use building containing commercial uses and up to sixty-three (63) dwelling units, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To amend and reordain Ord. No. 2010-100-83, adopted May 10, 2010, which authorized the special use of the property known as 200-214 East Leigh Street for the purpose of a multi-family residential use with up to eight (8) dwelling units in an existing carriage house building with the commercial use requirement waived and to authorize the construction of a mixed-use building containing commercial uses and up to sixty-three (63) dwelling units, upon certain terms and conditions.

REASON: The applicant is requesting to amend the existing special use permit (Ord. No. 2010-100-83) to authorize the construction of a five-story building that exceeds the height limit permitted by the underlying zoning district, which is 35'. Additionally, the front yard (setback) requirement is not met along either of the two street frontages with the proposal.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its December 6, 2021 meeting.

BACKGROUND: The subject property consists of a two parcel of land and a private alley that collectively contain a lot area of 39,976 square feet (0.92 acres) and is currently improved with two buildings that contain a combined 22 dwelling units, 3,340 square foot commercial space and a parking area containing fifty-street parking spaces. The property is located in the Jackson Ward neighborhood at the northeast corner of East Leigh Street and North 2nd Street.

The subject property is located within the B-2 Community Business District. The height of the proposed building (61'4") exceeds the height permitted under the B-2 district regulations, which is 35'. Additionally, the front yard setback (which is 25' or the same as an adjacent building, whichever is less) is not met for either street frontages as the building is proposed to have zero setback at the corner.

Richmond 300 recommends a future land use of "Neighborhood Mixed-Use" for the property. The primary uses recommended for Neighborhood Mixed-Use are single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units) and open space. Secondary uses include large multi-family buildings (10+ units), retail/office/personal service, institutional, cultural and government. The intensity recommended for Neighborhood mixed-use is typically two to four stories, with more height permissible along major streets. The development style should be compatible with the existing context. Setbacks, plazas and parks can help create a sense of place and community gathering areas. New developments on larger parcels should continue or introduce a gridded street pattern. In historic neighborhoods, small-scale commercial

buildings should be introduced. Ground floors should engage the street with features such as street-oriented facades. Appropriate setbacks, open space, front porches, elevated ground floors and other features that provide a sense of privacy should be provided for residential uses. Pedestrian, bicycle, and transit access must be accommodated, and bike parking must be provided.

The subject property also falls within the “Downtown-Jackson Ward” priority growth node as shown on the land use map of Richmond 300. The plan envisions this area to continue to be predominantly residential with non-residential uses scattered throughout at corners and along major roads. New infill development is encouraged to incorporate high-quality architecture and complement the character of historic buildings.

Both of the property’s street frontages are designated as “Major Mixed-Use” street on the Street Typologies map in Richmond 300, and the portion of East Leigh Street that abuts the property is shown as being planned for high frequency transit on the Enhanced Transit Map in Richmond 300.

A variety of uses surround the property, including the Maggie L Walker Historic site to the west, Third Street Bethel AME Church and The Bethel Center to the east, two- and three-unit dwellings and the Eggleston Plaza mixed-use building to the south and the Mocha Temple lodge to the north.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.
