TO: The Honorable Members of City Council

(This in no way reflects a recommendation on behalf of the Mayor)

RE: To authorize the special use of the property known as 1000 Westover Hills Boulevard for the purpose of a residential use with up to six dormitory-style units with shared sanitation facilities accessory to a church, upon certain terms and conditions.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 1000 Westover Hills Boulevard for the purpose of a residential use with up to six dormitory-style units with shared sanitation facilities accessory to a church, upon certain terms and conditions.

REASON: The applicant is requesting to authorize the special use of the property known as 1000 Westover

Hill Boulevard for the purpose of converting the second floor of the Sunday school building into an accessory residential use, with six dormitory-style residential units sharing restroom and sanitation facilities. The property is located in an R-5 Single-Family Residential District, which does not permit the proposed dormitory-style residential use.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its January 3, 2021, meeting.

BACKGROUND: The subject property consists of a single parcel of land that contains a lot area of 127,935 square feet (2.937 acres) and is improved with a church sanctuary and Sunday school building in addition to an accessory parking area.

The property is located in an R-5 Single-Family Residential District, which does not permit the proposed dormitory-style residential use.

Richmond 300 recommends a future land use of “Residential” for the property. The primary uses recommended for Residential are single family homes, accessory dwelling units and open space. Secondary uses include duplexes and small multi-family buildings (3-10 units), institutional and cultural uses. These uses should typically be located on major streets. The development style for Residential is houses on medium or large sized lots with homes setback from the street. Future development should continue or introduce a gridded pattern of development and new buildings should be built to a scale and design that is consistent with existing buildings. Buildings are generally one to three stories, with lots generally ranging up to 5,000 SF to 20,000 SF. General density should be 2-10 units per acre.

The portion Westover Hills Boulevard that abuts the property is designated as a “Major Residential Street.”

The property falls within the Westover Hills Neighborhood Node. This area is envisioned to have a village-like quality with small retail, services, and restaurant offices that serve primarily the surrounding neighborhood, but does also attract outside visitors. Over the next twenty years, the node could be enhanced by 1) discouraging a suburban development pattern (where buildings are pushed back with parking in front of them) and encouraging urban form with buildings that are closer to the street with parking located in the rear in shared lots, and 2) utilizing a Complete Streets approach to street design to ensure pedestrians, bicyclists, and transit users are adequately and safely accommodated in the public rights-of-way.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City’s budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.
