RE: To authorize the special use of the property known as 501 North Allen Avenue to allow for hotel use and ground floor commercial use, upon certain terms and conditions, and to repeal Ord. No. 98-115-182.

ORD. OR RES. No.

PURPOSE: To authorize the special use of the property known as 501 North Allen Avenue to allow for hotel use and ground floor commercial use, upon certain terms and conditions, and to repeal Ord. No. 98-115-182.

REASON: The applicant is requesting a Special Use Permit which would allow for hotel and ground floor

commercial use within R-48 - Residential (Multi-Family) zone on a lot with an overall size of 0.048 acres with existing building of roughly 35,000 square feet. Commercial uses are not permitted within the R-48 Residential zone. A Special Use Permit is therefore requested.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its August 15, 2022, meeting.

BACKGROUND: The proposed project includes one parcel of land located on the east side of North Allen Avenue, in the Fan neighborhood. The total land area of the parcel is 2,100 square feet, or 0.048 acres. The property is currently improved with a historic 35,000 square foot, six-story building and parking lot. The building has previously included a residential use and adult care facility, but is currently vacant.

Richmond 300 recommends a future land use of “Neighborhood Mixed-Use” for the property. This designation is defined as “Existing or new highly-walkable urban neighborhoods that are predominantly residential with a small, but critical, percentage of parcels providing retail, office, personal service, and institutional uses.” The development style is established as “These areas feature a variety of building types that are close to one another and create a unified street wall. The building size, density, and zoning districts for these areas vary depending on historical densities and neighborhood characteristics. Future development should generally complement existing context. Setbacks, plazas, and parks create a sense of place and community gathering areas. New developments on larger parcels continue or introduce a gridded street pattern to increase connectivity within the neighborhood and to adjacent neighborhoods. In historic neighborhoods, small-scale commercial uses exist today or should be allowed to reestablish. In new neighborhoods, small scale commercial buildings should be introduced.”

Primary Uses: Single-family houses, accessory dwelling units, duplexes, small multi-family buildings (typically 3-10 units), and open space.

Secondary Uses: Large multifamily buildings (10+units), retail/office/personal service, institutional, cultural, and government.

The applicant is requesting to renovate the existing building to include a hotel of 75 rooms, restaurant, and bar. The exterior façade of the building will not be physically altered, although signage is proposed to be placed on the building. Outdoor patio seating is proposed at the base of the building on an existing patio. The hotel will use off-site valet parking along with on-site parking located to the rear of the building.

The project is located in the Monument Avenue City Old and Historic District. The Committee of Architectural Review (CAR) approved all proposed changes on April 27, 2022.

CAR provided the following conditions:

- Final sign specification, including design and colors, be submitted for administrative review and approval, and that all signs hardware be installed in a way that does not damage existing historic material, and that the applicant adhere to any additional sign regulations required by the SUP;
- The canopies be installed in a way that does not damage existing historic material, final design and color submitted to Staff for administrative review and approval;
- Final window schedule be submitted for administrative review and approval;
- And, any additional conditions subsequently imposed by DHR Part II approval be submitted to CAR Staff for administrative review and approval.

Properties to the immediate north, west, and east are zoned R-48 Multifamily Residential and to the immediate south, R-6 Single-family Attached Residential. B-6 Mixed-Use Business is located one block to the north, along

Broad Street.

The subject property is located approximately three blocks from the Alison Street GRTC Pulse station and approximately five blocks from the VCU and VUU station.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.
